

M. R. C.

KAUFMAN

1947

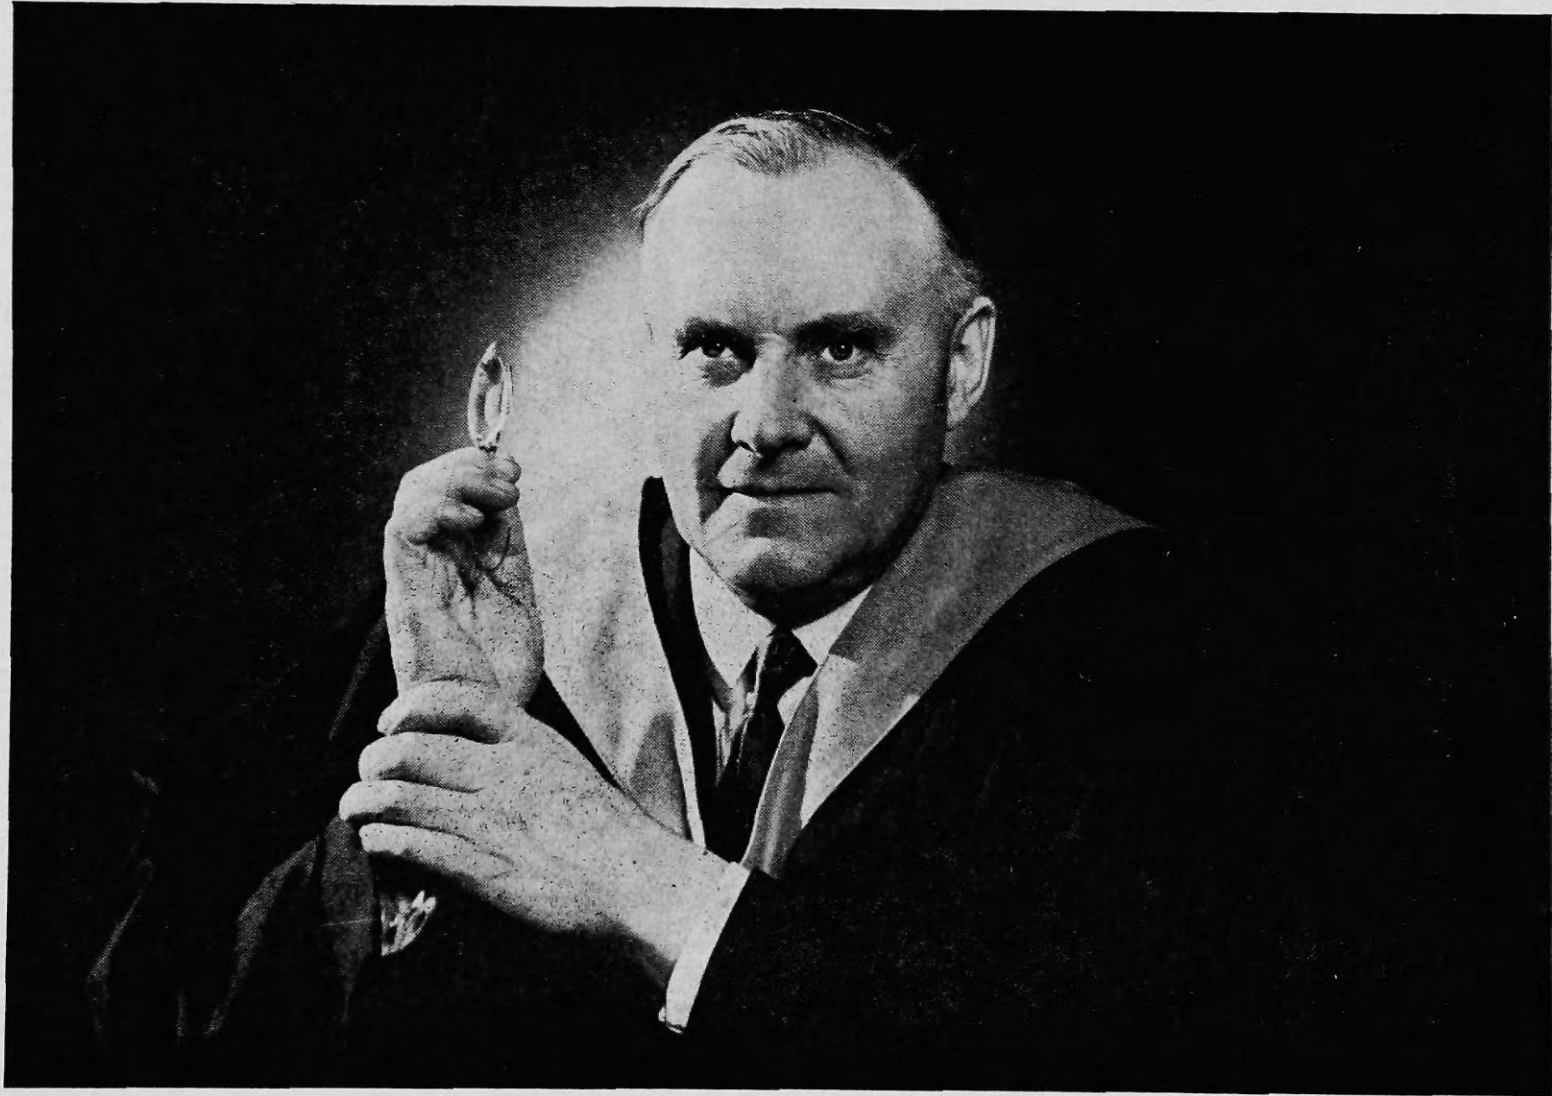

Since 1910 Mount Royal College has been one of the leading Educational Institutions of Calgary. Twenty-one years later, in 1931, it became a Junior College, affiliated with the University of Alberta. Hon. Vincent Massey designed the crest, on which is inscribed our motto:

"Quam bene non Quantum"—"Quality rather than Quantity".

DR. JOHN H. GARDEN
Principal

Foreword

By Dr. JOHN H. GARDEN, *Principal*

I have been asked to write a Foreword to this interesting record of Mount Royal College in the year 1946-47. This year marks a milestone in the life of the College and in the lives of many of us. World War II is slipping into history. The College halls are crowded with those who have served with the armed forces and are now preparing themselves for the greater task of creating a world of Peace. They are a fine group we are all proud of the work they are doing. The establishment of a Faculty of Engineering has added greatly to our enrollment and widened the service that Mount Royal College is offering to the youth of southern Alberta. When all the factors are taken into consideration I think it is safe to say that this has been one of the best years in the history of Mount Royal College.

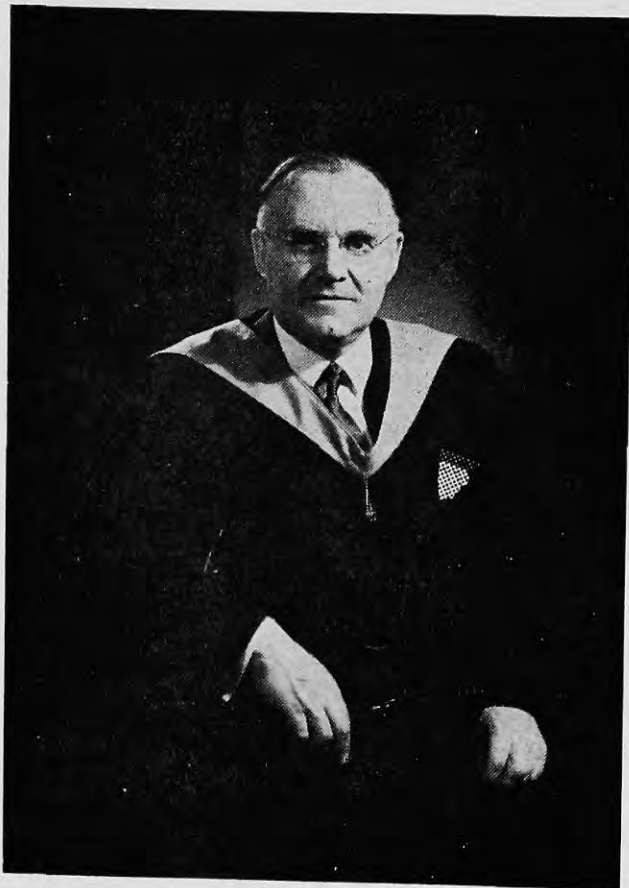

Many of you will graduate from the College, some to take their places here. Remember that this is a good world and we can make it better. It can be filled with happiness and you can find your place ready to meet the opportunity.

As another year becomes apart of the history of Mount Royal College it is my hope that it is not unworthy of those who have gone before and in some small measure, at least, it may be equally worthy of the future for which we dream and hope and plan.

Ye that have faith to look with fearless eyes
Beyond the tragedy of a world at strife,
And know that out of death and night shall rise
The dawn of ampler life:
Rejoice, whatever anguish rend the heart,
That God has given you the priceless dower
To live in these great times and have your part
In Freedom's crowning hour,
That ye may tell your sons who see the light
High in the heavens—their heritage to take—
“I saw the powers of darkness take their flight;
I saw the morning break.”

—Owen Seaman

"A Haverin"

Something new has been added to Dear Old Mount Royal—A new door opens upon vistas of - - - - things. Behind this august portal slumbers (or lumbers) legendary figures of that golden long ago. Can that door be opened? Even by "you-know whom?" Yes! Let's peek in.

The lock "goes damnably hard". We must have it fixed. But now we are in! In a row on each side of the room are little stands and a chair to each. Here are concocted the mental toils of the thirsty slaves without, the myriads thirsting for knowledge. Here one sees calendar (overrun with lush beauty), ash trays (overrunning) and teachers (run over). Lying on a desk a baton wearily exposes its cork tip and gives a musical air to the place; standing by the window a sonometer adds dignity and grace to the room; lolling on a window sill an old pipe, redolent of the "dreamy weed", adds something too. The view from the window also intrigues. To be specific is to be prosaic, but what one can see from that orifice could only be seen on a March day in Calgary—it is all there—every huge "blob" of it.

Verily it is a very romantic place reminiscent of that fabulous cave of Ali Baba and his 40 thieves. The thieves are there too, many of them, now, uncomfortably near 40 but they rarely speak of that.

The short and tall, thin and not so thin, all, congregate there. They speak of many things—of Caesar and hormones, of life and death, of plays and players, of lines, angles and curves (especially curves). Here one can find all one seeks.

If Romance—the flash of tender smile, the gay glance from roguish eyes, the strut and creak of ponderous muscle—all, all are here.

If Knowledge—The roll of the ponderous bearings, as mighty cerebrum unfolds, thunders in one's ears.

If Comradeship—Here can be heard the scottish bur-r-r, the English "a", the welsh "catch" and "the angels song"—all, all can be heard here.

And as we gradually, silently, reverently, withdraw, we feel perversely unmathematical and say to ourselves that something has been added in "Zero minus one".

The year that Richard opened the Door, but found that Kilroy had already left, is almost over for Mount Royal College. The impact of the veteran-student was felt as strongly here, as in the larger provincial universities. Enlarged to include three of the ex-army huts, Mount Royal absorbed them, and yet kept personalized teaching at a maximum. This policy was a great benefit to the Vets, who found that getting back to studying was a real job, after their experiences of the last six years. It is greatly to their credit, that these men have the foresight and ambition to carry on their studies to fit themselves for the post-war world.

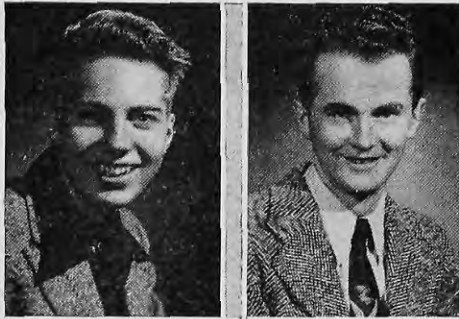

A new vocabulary of service terms has now taken a prominent place in most students' speech. Professor and teachers are now "Jokers" and "Wallahs". "Gen" is picked up by everyone, and there are few students who have not "had their time" on some detail. It is doubtful if this meets the approval of the English jokers: -sorry, teachers but it is now a definite part of the education offered at the College.

Yes, it has been an eventful year, with new friendships made and old ones renewed. Our Athletics have been very successful, and all clubs and organizations have flourished in the light of such a large student body. This yearbook is printed in the hope that it will remind you of many pleasant memories and friendships made at Mount Royal College.

University

R. W. McCREADY,
Dean

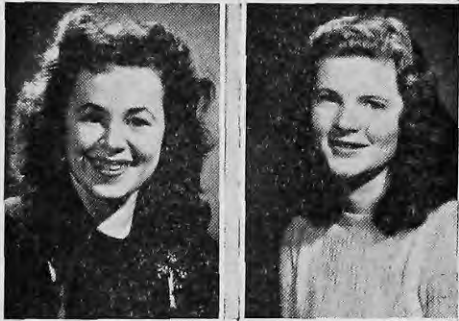

WAYNE AMUNDSEN (Munsen) Claresholm
 Theme Song of a Pre-Dent—"You dent 'em . . . I'll fill 'em."
 Wayne's interests are in sports—baseball, softball and track.

RALPH "ARCHY" ATKINSON Carbon
 A real morale booster around M.R.C. Archy 5 foot— of solid sunshine, manages to keep all the world a song. Of course we won't mention at his methods—but pestering "Stew" is one of them.

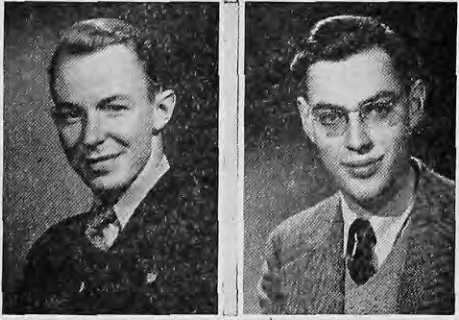

F. M. BARKE Calgary
 A physicist who needs a psychiatrist. He can't pronounce it, but it sounds big enough for Fred to handle. A warning from the Sylphs—"Beware of all, but most beware of man". His barke is worse than his bite.

JACK BARLASS Bellevue
 No. 1 Dream-Boy "Barley" hails from Bellevue, and is another promising medical student. He only wishes that French proved as interesting as hockey—and a certain cute little nurse.

MAXINE BARTSCH (Cuddles) Calgary
 Proposing to follow a commendable Social Service career, however Max has such a lovable nature that we fear it will prove social 98% and career 2%.
 Here's wishing you success in passing—or in finding a man who has.

AMBER BEBBINGTON Calgary
 Amber spent most of the school year commuting between here and Edmonton. Was just auditing the course this year but hopes to go to University next year.

R. F. BELL Calgary
 This blonde "engineer-to-be-he-hopes" goes by the names of "Ding" or "Single". His pet hobby? Why, pestering Bobyk, natch. .

J. DAVID BLAZOUSKE (Jonsey) Calgary
*"Jonsey. Jonsey. give me your answer do,
 I'm half crazy over this Latin 2."*
 A very sharp lad this, practically can speak the Latin language. Taking an Arts degree—but this is no doubt just a start.

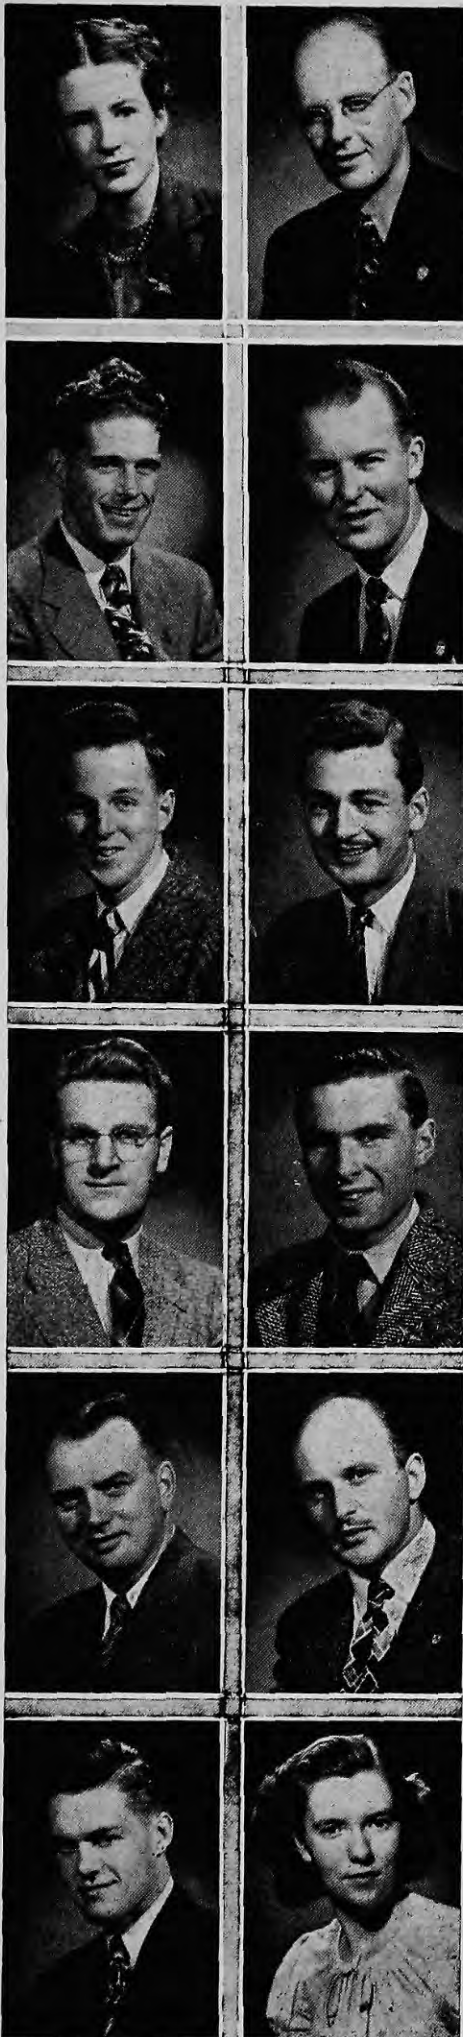

BRUCE BOBYK Canmore
 This is Bruce's second year at Mount Royal College which probably accounts for his good marks in his Engineering course.

CAURINO BOMBARDIERI Calgary
 Chick is taking a B.Sc. course, hoping to make alcohol cheaper than Johnny Walker does. Blows a mean horn as a hobby.

P. A. G. BOURREE
 This dark, good looking boy ran into illness during the last term. He has decided to withdraw and to try again next year. Good luck, Al.

J. B. BOWRON Calgary
 This likable chap has made up his mind to be an Electrical Engineer. Was a star in the Bowling league.

DAPHNE BOYD

Calgary

Heading for a Library School after getting her Arts degree. Is an equestrian and likes to skate, but, natch, her main interest is reading.

M. F. BRADFORD (Mel)

Oyen

With no time for nothin' but droolin' and schoolin' and I'll never give up as long as they're teachin'. Mel will undoubtedly be a resolute electrical engineer—sooner or later. (This boy is developing character to squelch his personality.)

BOB BRANDER

Lethbridge

Tall handsome Bob should go a long way in University—whether in class or out of class will leave to your guess. He comes from the "Southern City" and plays a mean kind of Badminton.

WESTON BROOKS

Calgary

Figures the only way to stay on the right side of the law is to practise it. Cartoonist par excellence. What he doesn't know about Poly Ec fills McIsaac and Smith.

F. M. BROCK

Calgary

Frank practices on Randy Burton's horn to get in shape for Gabriel's. Such talent. This boy should go a long way—if the neighbors don't have an ear for music. In his spare time he studies engineering.

NORMAN BUNN

Norm is heading for an Engineers degree. It was quite a blow to the girls here when they found out that he was married. A quiet sense of humor and a lot of friends, that's Norm.

EDWARD BURKELL

Hanna

Ed is another of our hockey and baseball enthusiasts. His applied science course keeps him busy most of the time. Guess he erlly wants to be an engineer.

H. CHANNELL (No. 5)

Innisfail

Some feel that here is the true L'il Abner, others think not; he is taking Petroleum Engineering—what do you think?

FRANK CLUTTERBUCK

Calgary

An applied science lad who is heading for Petroleum Engineering. His cartooning is the nearest thing to Disney's work to be seen in Calgary.

LAWRENCE COTTRELL

Calgary

Laurie wants to be a teacher. A sports minded chap who plays an outstanding game of tiddley winks and dominos. Spends most of his time with another ex Navy type, Stan Norris.

R. H. CRONKHITE

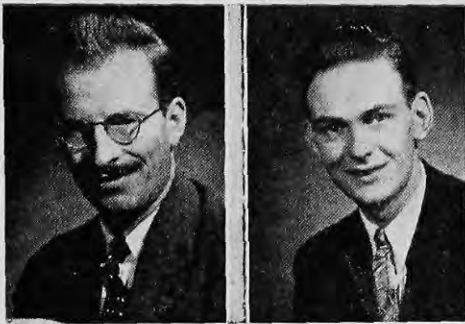

New Dayton

Bob is one of those hard working engineering students. When he isn't at his homework he takes a serious interest in Dick Tracy. Bob also likes a good game of softbal.

EILEEN CROOKES

Grey, Saskatchewan

This clever little miss with that wonderful smile is headed for the lab. She and her twin cause us to wonder sometimes what is the matter with our eyes. Music is her hobby.

H. R. DAVIES

Calgary

"From Borden to boredom".

When not at school, is at the "office". Hank has plans along engineering lines—natch. Berkeley California will gain what M.R.C. loses—who gets the change?

ROBERT LOUIS DEANS (Phoebe)

Vulcan

Bob's favorite pet peeve is allotting eight hours a day away from bed to be an aeronautical engineer. His pastime seems to be "Carmie", his phobia classrooms.

RUSS DOTEN

Edmonton

Russ gets his exercise at Penley's. Usually Friday nights with a brunette. Right Russ? Petroleum engineering is his aim.

J. E. DONOVAN

Calgary

*"And still they looked and still the wonder grew
How one small head could carry all he knew"*.

Jim is planning to continue in Honors Physics in Edmonton next year. Will undoubtedly ask enough questions to get there.

JACK EDGAR

Calgary

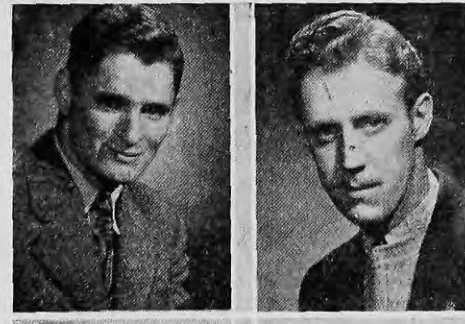

"T'would be a shame to neglect one's education by too much study."

In Arts and Science. Coffee and crokinole keep this boy on the bit. Heard saying: "The shades of night were falling fast, but I got a good look just the same."

ALLAN EDWARDS

Calgary

Allan is the brain of the Chem. class much to the despair of some of our friends. On his way to Law. Perhaps he and Langridge will sleep on a different "Bench" in a few years.

E. G. EVANS

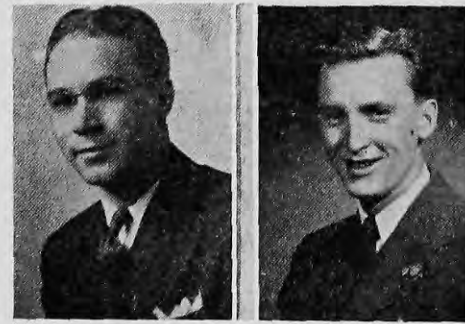

Calgary

An eager beaver who is working through his Pre-Med course in fine style. Is a "bottle sorter" par excellence.

H. A. (Fearless) FOGARTY

Turner Valley

"I'm no' the man I should be, Nor yet the man I could be,"—but don't put the blame on the Irish. Hal is going to be an engineer and may go over to the American Side next year.

CALVIN FRANKE (Cal)

Calgary

"Here about the labs I wander, nourishing a youth sublime. With the fairy tales of science and the long result of time". Cal has his heart set on Petroleum Engineering (and also on something more interesting.) If all goes well he will continue studies in the States next year. We wish him success all around.

BOB FREEBORN

Calgary

Bob has his heart set on being a chemical engineer. Well, good luck Bob. Golf and baseball are reportedly his interests but we suspect the girls are closer to the truth.

H. J. GRAHAM

Regina

This young fellow tells us that his main ambition is to be an engineer although he doesn't specify which branch. His spare time is taken up with boxing and swimming.

STAN GRAHAM

Calgary

We didn't see much of Stan this year as he threw in the sponge at Christmas.

BERNARD GRIFFIN-BEALE

Calgary

"Barney" the "Master Mind" of Poli Ec is full of ambition in his flaming (Not Imperial Oil either) career in B.A., B.Sc. (Eng). A likeable chap with an easy manner add a de-luscious blue sedan. Barney still finds time for swimming, archery, hiking and his hobbies.

LEN GROVER

Hanna

We understand Len plays forward on the hockey team. He hopes to be one of those lucky fellows with a B.Sc. after his name one of these days.

N. HANNAH

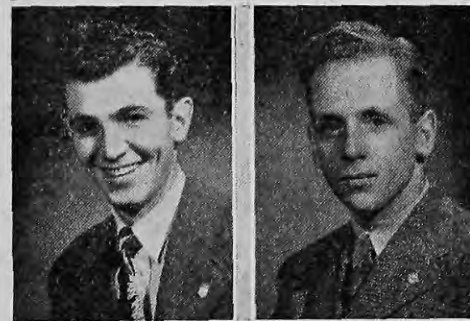

Calgary

Tried all year to keep ahead of his brother in the Applied Science course. We wish you the best of luck.

LLOYD HANNAH

Calgary

"Mechanical Mind" Hannah is another prospective engineer. Quiet, unassuming Lloyd should go a long way in his career, if it's hard work that counts (and smiles).

JACK HARVEY

Calgary

Jack's goal is chemical engineering. He is another one of the vets trying to combine one year of marriage with one year of University.

LLOYD HARVEY

Calgary

Lloyd is one of our local products who will go a long way in engineering. He tells us that his hobbies are hockey and wood-work. Other than that we don't know much about him.

DOROTHY HAYHURST

Calgary

This blond lass has a future career as a lab technician. Dorothy won the R. B. Bennett scholarship last year. Take a hint fellows, she can really knit, and I'm not kidding.

CLIFFORD WILLIAM HERGOTT (Maestro)

Calgary

"By and by there's the travelling doctor. Gives pills, lets blood, and pulls teeth".

Aside from working at this proposed Medical career of his, Cliff can really tinkle the ivories. Perhaps if scapulas bother him later—Hogie Carmichael can use him.

DOUG HORNBY

Calgary

Doug is taking Civil Engineering with a new twist, soil mechanics. We don't know what it is like but here's luck—Doug.

JACK IRVING

High River

Another Pre-Matric graduate who is doing well in his Applied Science course.

LYMAN GRANT IVIE (Carman)

Lethbridge

Carman's "pin-ups" make Petty's look like something out of the Neanderthal Age. A surgeon he will undoubtedly be if he keeps on the way he is doing now.

P. E. JEAL

Calgary

Another of our applied science students who will be demanding his degree in a few years. Electrical is his forte. Well, best of luck Phil.

J. E. JENKINS

Twin Butte

Working to be a "Sawbones" the hard way through a B.Sc. With a good record at Pre-Matric behind him, he should do well.

DON JOHNSTON

Vulcan

Coming from Vulcan and freshly out of the airforce blue, we feel Don is still an airman at heart, only now he's learning the technical angle of the business in his engineering course. Skating and ball claim Don's extra hours—or at least some of them ? ? ? ?

BOB KEIR

Calgary

Our friend Bob hasn't given out with much information. However from here and there we understand he aspires to be an engineer and is a real student.

DON KENNEDY

Calgary

An up and coming lawyer. Enjoys Pol. Ec. as a refreshing forty winks. An ardent basketball player for the juniors. Don enjoys life, and we enjoy him.

G. D. KERMACK

Calgary

Draws pictures in Zoo—but they aren't dog fish. All set to be a chemist Plays basketball for the House League. He and Barke expect to develop a process for making sugar in their own little lab someday.

CHARLIE KNIGHT

Calgary

(You never learn anything if you don't ask questions)

Is a prominent figure around M.R.C. and a very capable social convenor as well. With that Casanova smile and winning personality, particularly to "You know who", he'll make a very dashing doctor some day we hope (and so does he).

NORMAN KNOWLES

Calgary

This red haired fellow is one of our Science studes. He likes hockey and bowling and we also understand he can really pound out a mean tune on the piano.

CALVIN LANG

Cardston

Cal finds that Zoo course quite fascinating—does not seem to notice the other attractions around the College. A very conservative student—the one most likely to succeed.

B. E. (I am wishing I am home in my bed) LANGRIDGE

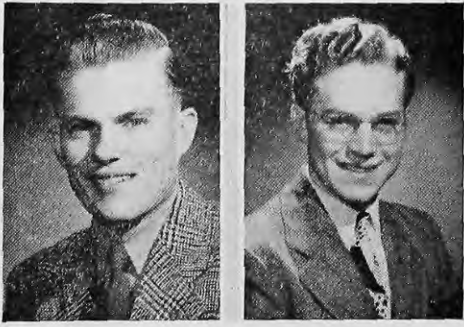

Calgary

Langridge and Edwards seem to be fighting their way through this year with great success—one sleeps while the other listens. Langridge is one of our few future legal minds.

WALTER A. LAWRENCE

Calgary

Walt has definite ideas on the past, present and future too. Hopes to be an Electrical Engineer in Edmonton (what's wrong with Calgary) With ambition and curly hair he should be well away.

GIL LAYCOCK

Calgary

Gil is registered in applied science faculty, and says if everything goes well he will be in Edmonton next fall. Wherever there is a hockey or baseball game you can find this young man.

J. D. LIND

Granum

A sharp lad who is going to dabble in dentistry. He should amalgamate with Amundsen on writing "The Lives of the Gumbo Lancers".

FRANK (Math Lab) LOEWEN

Calgary

Enrolled in the Faculty of Education but doesn't know why. Never seen to take notes, yet comes through with the goods in exams.

KEN LOUDEN

Calgary

A little fellow with lots of everything else. Ken plays no mean game on the badminton court and just plain courting (so we hear). He plans to go to Bible School someday. Better start getting in shape, Ken. . .

W. L. LOVE

Calgary

Plays the sax in the symphony orchestra. Can be seen smoking that pipe of his when he comes now and then.

BOB (The Body) LOW

Calgary

Still waiting for ships, that not only don't come in, but never leave England. Concentrates on growing a high forehead to look intelligent and impress clients when he says "I think you've got a case".

C. D. LYTH

Calgary

This red haired boy will be in Edmonton next year for certain. Meanwhile he is registered in Applied Science here. He is too busy to have sports or hobbies he says.

A. MACCALDER (Al)

Black Diamond

To be a Petroleum Engineer, and make big time in the old home town of Black Diamond. We feel confident he will succeed in his ambition.

S. P. MACKAY (Stan)

Warner

"A man's a man for a' that".

Stan is noted for growing a new black moustache and those Science books galore.

K. MADSEN

Calgary

Here we have one of our future young engineers. Next year should see him in Edmonton. Says he has no sports or hobbies but we know better.

PATRICK (The Brain) MAHONEY

A very sharp lad and our valedictorian. Aspiring to the greatest of all professions—Law:

But remember—'No matter how thin you slice it, it's still Mahoney. . .

AVARD SEFTON MANN (Seftie)

Eckville

Seftie, for something new and sparkling different, is taking Engineering. Also one of "the sleepers" of the dorm, and in this respect vies with R. L. Deans in pounding the mattress. May the best man win. Nice lad.

N. MARKERT

Ensign

This boy is one of those fortunate people who doesn't mind his setting up exercise every morning. Reports say he really enjoys it. Is enrolled in Science.

MARC MATHERS

Calgary

Marc, "the man with that flashy plaid shirt, that hits you like a red light" is better known as "Doc" around the College. He hopes, among other things, such as passing, to head south—and he skis too.

DON McALLISTER

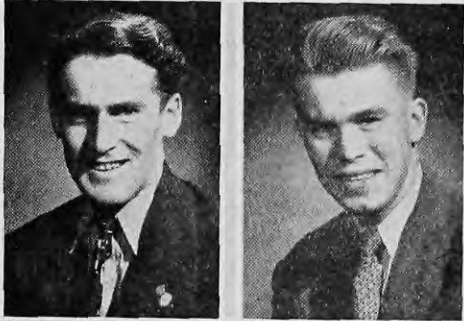

Calgary

Already carries his brief case in preparation for his ambulance chasing career. A hard working citizen who should go a long way. Maybe even up to Edmonton.

A. F. McCRIMMON

Sylvan Lake

Sandy figures on majority in Chemistry. Quiet and likeable, he is one of M.R.C.'s hardest workers.

DOUG McDOUGALL

Calgary

A real sportsman, Doug capably manages the M.R.C. hockey team. He finds it quite a job keeping himself in one piece, but then he has his Arts and Science course for a sideline which he finds relaxful, don't you Doug? ? ? ?

DAVID McKILLOP

Calgary

This popular fellow always has an appropriate remark ready. Dave has entered the Science faculty and is headed for B. Sc. in Forestry Engineering. He is a fine bowler and also handy with a rifle.

ERNIE MEINDERSMA

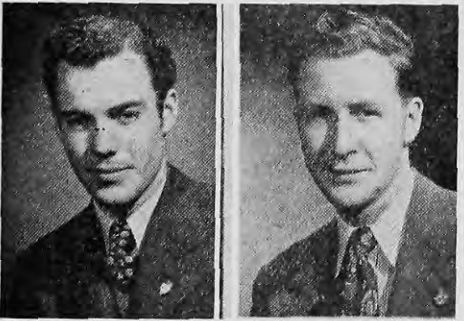

Lacombe

Ernie is taking a B. Sc. and hopes to be up at U. of A. next year. Ernie also plays a mean game of soft ball.

CLAYTON MILROY

Edmonton

"Hairless Joe" is another fellow who is working towards an engineering degree. When he graduates he plans to retire and take up model building.

JACK F. MOORE

Calgary

Mine-chaser Moore is also in the get rich quick faculty—Law. Interested in skiing and lawyers' secretaries.

JIM MURDOCK

Calgary

Hamish Murdoch, one of our more ardent female psychologists (and who is better suited to the job than he ? ? ? ?) Is pursuing an applied science course on the side. We wonder whom he's going to apply it to ? ? ? A dreamy dancer, Hamish is also well-known in gymnastic circles around town.

STANLEY NORRIS

Cornwall, Ontario

Junior is enrolled in the Education Faculty. Says he will join the navy if he doesn't get through but his marks and his Frau will probably avert this.

S. O'CONNOR

Calgary

"In idleness alone is there perpetual dispair".

A foine broth o' a girl—Sals a gal with a well developed mind, personality and anatomy with her flaming hair and bright conversation causes that big, dark swashbuckling hunk of male charm to drool. Oh I wonder what's going to become of sally.

R. A. ORR

Calgary

Bob will be satisfied to just be any kind of an engineer. We think that is good enough too. The frozen north nas aroused his interest in skiing and M.R.C. his enthusiasm for basketball.

T. B. (Consumption be done about him) PARKER

Calgary

If you know Ben—no explanation is necessary.

If you don't—no explanation is possible.

An aspirant Petroleum Engineer and if all goes well is Oklahoma bound next year.

A. POLSKY

Calgary

Flattered us by leaving Edmonton after a month for "The Prison of Chillan" (M.R.C.). He is quite satisfied here being in Pre-Med, and we hope he won't have to overstay his visit.

ROSS PIERCE

Calgary

This bright eyed boy knows all there is to know when it comes to basketball. Could be responsible for many of our victories in hockey too. Is enrolled in Science.

J. PEAKE

Calgary

Johnny's a familiar face at M.R.C. A budding engineer Johnny is applying his science of friend-making to all he meets.

LYNN (I'll sell the farm) PRICE

Crossfield

A future Chemical Engineer, planning to continue studies at U. of A. Until this year was a "track and field" artist—but this studying weaks a man down.

GERRY REILLY

Calgary

This young fellow can be found among our numerous applied science students. His activities are numerous although he doesn't specify exactly what.

F. C. A. ROBINSON

Vermillion

"And O, a might man is he".

Robbie is taking that course over in the huts, where, if he comes through—the University of Texas if a big place, and is not, they pay a man in Yellow Knife just to live there.

BERNARD ROE

Calgary

Taking a B.Sc., t lead to his chosen career of a "Pill Merchant". Bernard's blond, curly hair is a well known sight about the school.

RICHARD ROE

Calgary

Dick hasn't made up his mind but he thinks Law is a good bet. He's looking to Mount Royal for most of his clients.

W. H. ROLSTON

Calgary

Bill is one of our fellows who will be building bridges in the future. His hobbies of hunting and wood-making should keep him busy in his spare time.

I. W. SANDEN

One of that rare species—the "school spirited" student. One of Mount Royal's best bets for a successful engineer.

CATHERINE SCOTT (Cathy)

Calgary

*"So sweet a face,
Such angel grace".*

A luscious blonde with many talents, not the least of which is sailing through a "B.A." all the way. A girl who should go far.

JOE SHEININ

Calgary

Joe is looking for a way to get rich quickly. Maybe the boss's daughter, eh Joe? His spare time is taken up with trying to coax a curl into his mop.

SAUL SHEININ

Calgary

If he graduates from Arts and Science he'll be satisfied to just frame his diploma. Dabbles in Photography and gives Charles Atlas a little competition in building muscle.

WILLIAM (Bill) SLIPPER

Calgary

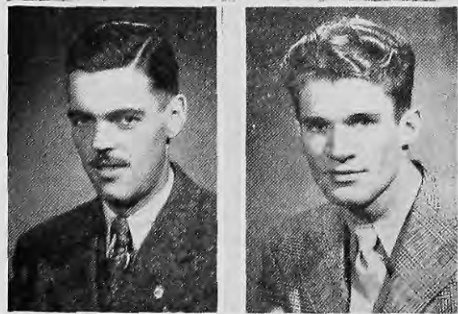

Bill is hard on the road to the medical profession but he's really hoping that it won't interfere *too* much with his extra busy social life. Yes, and she's a brunette too. Of course versatile Bill also finds time for music and playing ball.

DAVID (Red) SMITH

Coleman

At Christmas left the ranks of the 'confirmed, confined, conformed bachelors'. Is in Applied Science and is planning on attending U.B.C. next year.

R. F. SMITH

Nobleford

This boy is headed for Edmonton to get his engineering degree, probably in electrical. He tells us that anything interesting does for his relaxation.

JIM SPALDING

Calgary

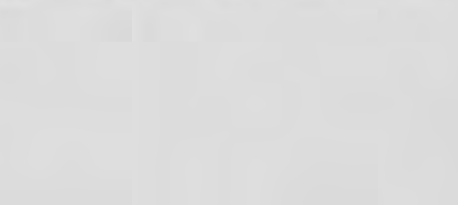

Taking the Petroleum Engineering course. Plays golf and rugby, but who wouldn't with a name like that. Parties and merry-making are his only hobbies. Why have any others

MAURICE SPRING

Calgary

An ex-army chap giving his all to an applied science course. Any spare time goes into his house building hobby.

P. E. START

Coalhurst

Start was taking an Applied Science course leading to his Engineering degree. Wears his hair like a scientist.

G. C. STEFANICK

Lethbridge

"From trenches to benches."

Taking an Applied Science course. A wizard in Math., George is not making any plans for next year until he knows the outcome of this one.

A. A. STODALKA

Calgary

This boy has come from Saskatchewan to be an engineer. Hope you like it here Al. Spends his oft afternoons down by the river seeing if he can get a free meal.

MARY STOLTZ

Silver Heights

Tall, dreamy eyed Mary who comes from Silver Heights, Alberta is another real student. We wonder if she and the profs work in cahutes by those envied marks. Yum. Yum.

D. G. STROPLE

New Brunswick

Stropole is headed for Oklahoma next year to continue his Petroleum Engineering. He doesn't believe he's working now as that's his next ambition. How do you do it Stropole? A versatile lad with a big smile. (P.S.—I've never seen him).

JIM (Dakota) STUBBS

Calgary

Heading for an Engineering degree. Says that he works hard all week but has a "Wales" of a good time on the weekend.

EVELYN TAYLOR

Pincher Creek

A master mind in languages. Lives at the school and is liked by all, even the teachers. That's what brains do for you folks.

ISRAEL SWITZER (Srooky)

Calgary

"O where shall Israel lave his weary feet, And when shall Zion's songs again seem sweet?"

An ambitious boy who intends to continue in Honors Chemistry. If he fails to pass this year he expects his money back.

KARL OVE SYLVEST

Ponoka

Taking pre-med, and with those trusting brown eyes he shouldn't have too hard a time in developing that necessary bed-side manner.

SARA LUCINDA SWARTZ (Sadie)

Calgary

"Tis education forms the mind."

Sadie is taking an Arts course and plans to continue in Edmonton next year. She has the intelligence and the will to get there—and we are sure she will.

J. A. TEELING

DeWinton

Enrolled in the faculty of Law. Spends much of his time trying to find a mistake in the Calculus book. Speaks his German lessons like a native—of Canada.

M. S. TEMPEST

Calgary

Along with the rest of the Applied Science boys he spends his time over in the huts. When this is being written he is undecided as to what kind of an engineer is most likely to succeed—hope you pick the right one Murray.

JEAN TROWSDALE

Calgar

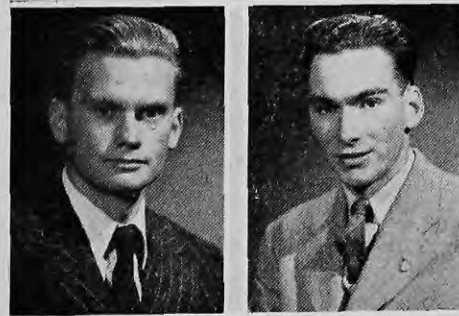

Tall, slim, brunette Jean, we feel, prefers staying "Out late to stayin in late" and sitting in the "penalty box" to sitting in "Poli Ec". She loves blonde men and "R.R." are her favorite initials. Haven't you guessed yet?

JACK WAGNER

Innisfail

This likable chap is enrolled in the B.Sc. course. We hope his second year at Mount Royal will prove successful.

D. C. WEBB

Conrich

"Red" is another Applied Science chap who shines in Drawing 4.

JACK WEGH

Calgary

Smiling Jack is M.R.C.'s future Dr. Kildare, we hope. With a little pressure on all that "Personality Plus" he should soon have all his nurses sighing over him. Jack's pet attractions are hockey, Penley's and a cute redhead.

FRANK WEST

Halifax

Frank has come a long way to get a taste of M.R.C. life. He is headed for an engineering degree. In his spare time he uses those bones to earn a little extra cash.

WALTER JOHNSON (Johnny)

Vernon

Hails from 'Canada's Banana Belt'—the Okanogan Valley. Plans on continuing either in Chemistry or Physics at U.B.C. next year. Johnny has certainly been an asset to M.R.C.'s athletics. (maybe scholastically too).

A. C. GIBBARD

Okotoks

Hopes to graduate into Alcoholics Anonymous and out of the Engineering Faculty. Also one of our few hard working, industrious types.

F. T. WHITE Tut—not to be confused with King Tut)

Calgary

"Double double, toil and rubble, Gad this Year Book's a lot of trouble" Fred figures he will obtain an Arts degree, then (because being exposed to some good literature helps) a librarian course, and lastly try his hand at the 'old dabble writing'. If there is any degree of certainty left for the future, all should go well with Fred's plans.

L. I. WICKENS

Turner Valley

When you see Murray Tempest look for this boy. He is a swell bowler and also we hear an outstanding basket ball player.

F. L. WILKIN

Calgary

This future engineer traded army life for school. He spends most of his spare time snow balling innocent people and trying to satisfy that huge appetite of his.

ERSKINE WILLIAMS

Calgary

Ersk is another budding lawyer. Going to continue his studies at the U. of A. next year. Competes with Westie Brooks in sleeping away History periods.

GEORGE ZIMMERMAN (Zeke)

Ponoka

Zeke is another of our hopeful M.D.'s. We hope that surgical touch improves some from his dog fish tactics. Is forever trying to wangle a way to the home fireside each weekend.

ELEANOR JEAN RONN

Calgary

A little girl with big ideas. Taking commercial, high school and university all at the same time is quite a job but she still has time for swimming, riding and skiing.

TED (Charpoy) BARROLL

Calgary

Heading for a degree in Petroleum Engineering. Practices drilling for oil with a brace and bit in his back yard between cold spells.

G. J. BURNS

Calgary

One of Mount Royal's few who have figured out what to do—is going to leave this school work to fly for T.C.A.

T. V. COMPTON

Castor

In Arts and Science. This lad doesn't believe in wearing lab coats but still retains his immaculateness. Another hopeful petroleum engineer. He is going south next year (Latest news is that he has already gone south)

JAMES M. DALEY

He, Daley, pushes his baby carriage filled with books and baby is somewhere chewing on the English notes. An Arts and Science lady Jim is a devoted student, husband and father.

H. C. FOGARTY (Herb)

Calgary

Taking Applied Science. Unfortunately Herb's rarely seen around the school—must be applying his science elsewhere. The shy, silent, but not harmless type

CHARLES (Chuck) HAMILTON

Calgary

Chuck is really seriously considering being a doctor. Another brown eyed boy who should be compelled to wear a bell after dark. He figures Edmonton has a good medical course and so it has.

DOROTHY KWONG

Calgary

An attractive young brunette with a melting smile and all that goes with it in a young girl (?) Dotty is taking "Arts and Science" this year and is really showing that "brains" are plentiful under those lovely curls. Bowling is her pet sport.

J. G. LINEHAM

Turner Valley

As a Turner Valleyite, Jim is naturally "oil" minded (among other things)—we think this is "oil right". Taking Applied Science, and professes he is too busy to do anything but study. . .

VINCENT O'CONNOR

Calgary

Vinc is one of our more far-sighted lads who thinks he'd better be a lawyer so when he marries, he'll really know how to lay down the law. A sports enthusiast Vinc plays rugby, hockey and bones. Is interested in music and model building.

AVIS POPPLEWELL

Calgary

A tall and sleek brownette with a Colgate smile, Poppy, a former W.D. hopes to become a lab. technician (B.Sc.). With those mischievous twinkling eyes, Poppy, we wonder if you'll make it—the career, we mean.

A. J. POWELL

Blackie

Spent his time at the Engineers Brawl collecting the beer bottles (70 cents a case) so he could take his English bride to a respectable dance. A likeable fellow and very ambitious.

L. M. RASMUSSEN

Cardston

Card. is Mount Royal's Mathematique. A good egg, when his sunny side is up. A hopeful petroleum engineer.

JIM RIDGWAY

Calgary

Jim is looking forward to being an engineer some fine day. We bet he will make a good one too. His wife, skiing and shooting are reputedly his main interests.

JOHN C. SKETCHLEY

Calgary

"Johnnie with the light brown curls" is heading for a Petroleum Engineering career. He says he has no sports but he must take that superfluous energy out in something—or someone? Yes, you have us baffled Johnny. . .

JOHN STEWART

Calgary

When not studying on his Applied Science course works in Calgary's most select retail store—9th Avenue branch, that is.

F. G. SWANN

Calgary

This is the boy who drives the lush Cadillac. He wants to be an engineer if he can make it. Well, anyhow you could still take a job as a chauffeur.

ROBERT J. TAYLOR

Calgary

Right off a ship and into a Chemistry lab is a blow to one's ideas but Bob is making out. Hopes to be an electrical engineer and finish in Edmonton.

DON UWANISHEN

Calgary

Another boy who left the army to join the rest at M.R.C. Plays hockey for relaxation. In off afternoons the Royal is his hideout. With brown eyes and dark hair he shouldn't hide in there all the time.

C. F. (Shoulders) WATTS

Calgary

It seems Cliff is going to be a Petroleum Engineer—isn't that nice? Texas and Oklahoma are bidding for him but he can't make up his mind whether he'd like to have a drawl or a *dryness* in his throat.

The following students did not complete the fall term at Mount Royal College (Varsity branch).

- A. W. Barbour—(Left January 8th, 1947).
- Marvin Barenholtz—(Left at Christmas).
- S. L. Graham—(Left at Christmas).
- D. P. Mactaggart—(Left January 14, 1947).
- W. P. Powers—(Left in January 1947).
- E. Wheatley—(Left November 26, 1946).
- W. Workman—(Left November 12, 1946).

The following students are registered in only one class at Mount Royal College (Varsity branch).

- Gwen Askew—(Zoology 2).
- Vivien Odney—(Mathematics 40).
- J. H. Staines (Chemistry 40).

Valedictory

By PATRICK M. MAHONEY

FEW of us have not felt, at one time or another during the past short months, a little out of our depth. We wondered whether we might not just as well be taking Reeling, Writhing, Mystery—ancient and modern, and those other subjects taught by the Old Crab at Lewis Carroll's submarine school. The cliché of the year, that well known wail of each English student—"I haven't got a clue!"—was the symptom of our affliction; the cure, we soon learned, is work, more work, harder work.

We, who have been fortunate enough to take our first year varsity at Mount Royal College, found ourselves in an institution where the faculty can and does take a real interest in the work and progress of each student. As we leave M.R.C., we are grateful; but it will be the next few years, in the large universities, that will make us appreciate the value of the college in our transition from the service or from high school to university.

A person of a poetic turn would have found plenty of inspiration for a lyric during the past weeks but, being of a somewhat prosaic mind, we'll just mention a few themes.

Thanks Gus. Your emporium is an integral part of Mount Royal life. Many is the time, having failed to become enthused over the Law of Diminishing Utility, we drowned our sorrows in your good brew, and many is the noon hour we spent in one of your booths in session with the local yokels.

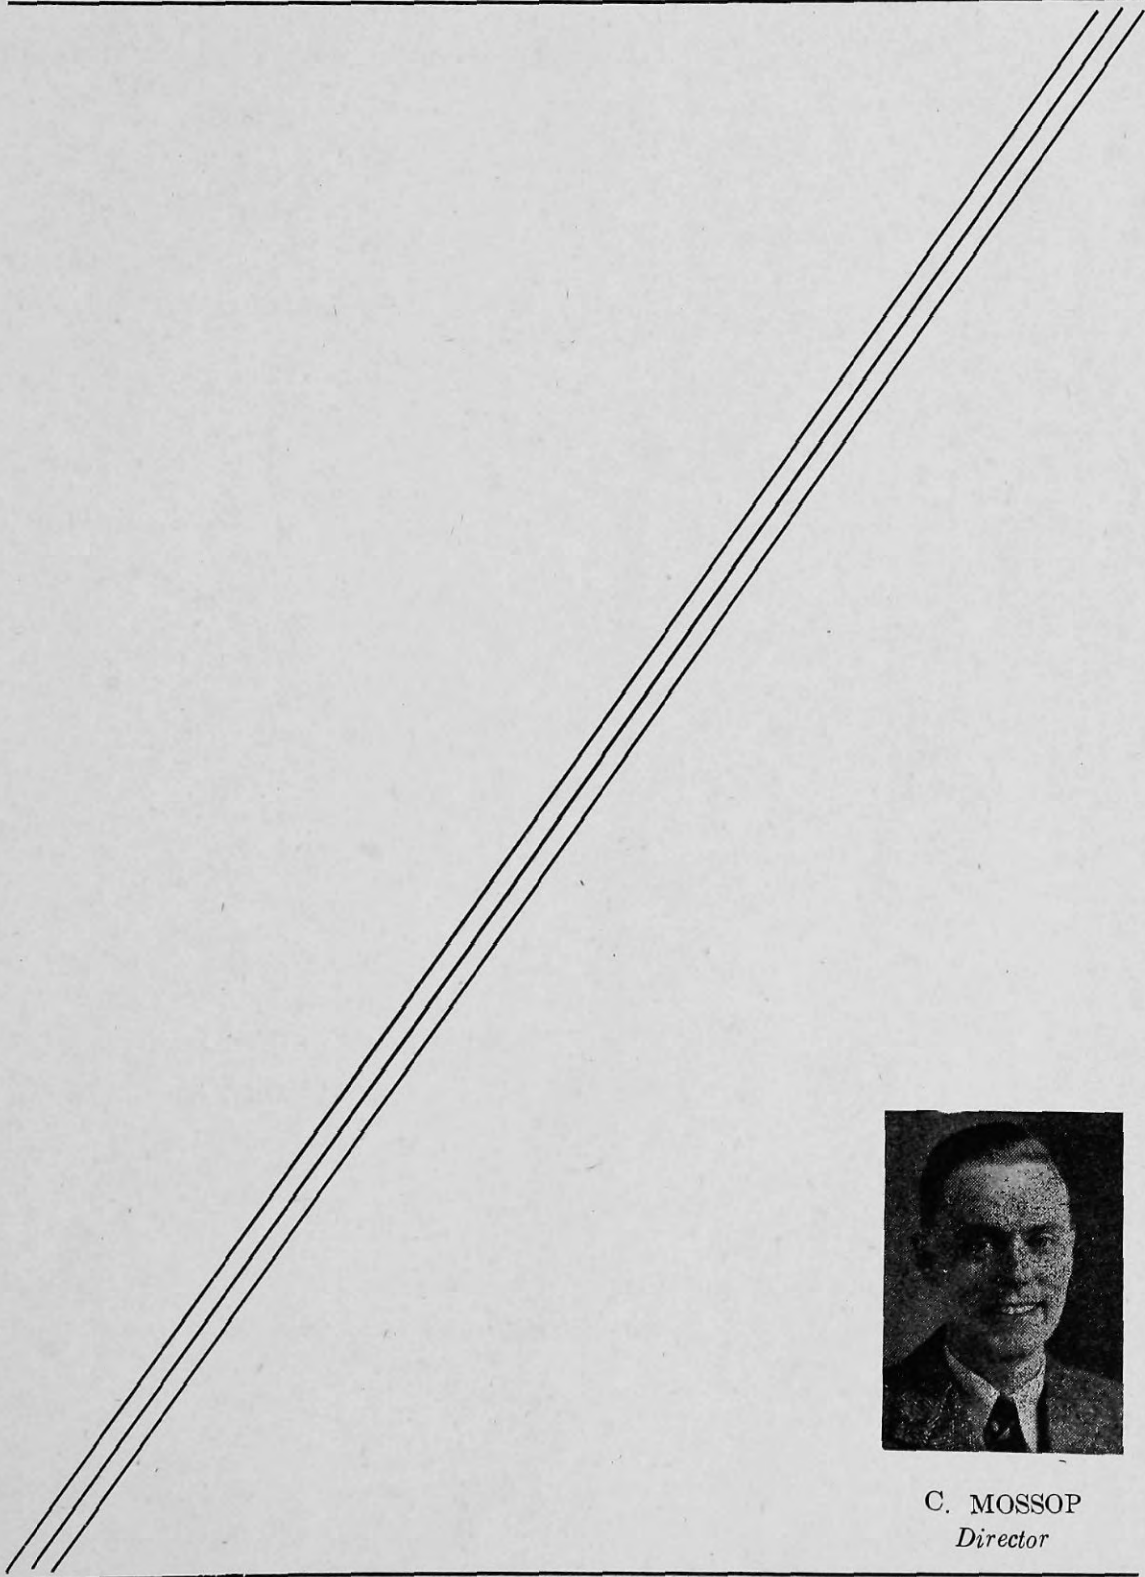

Thanks faculty, for a great sense of humor; for the jokes at which we had to laugh, in lectures, and the ones at which we could not help laughing, too. Thanks for your participation in our social functions, for the great melodrama, the music hall ditties of a certain Latinist and the very successful work of our Math instructor with the orchestra.

Thanks Daisy, for letting us use the phone.

Above all, thanks Mount Royal, for the new friends, now old friends.

This year has shown us what we must look forward to before we gain the goal labelled "Success". As we draw near that goal, we shall see the plainly printed subtitle "Duty". If we properly use the privilege of university education, we shall perform our duty to the people of the world and, in doing so, shall attain true success.

The Conservatory of Music

(Including Department of Speech and Drama)

In affiliation with

The Toronto Conservatory of Music

Director

CYRIL S. MOSSOP, A.T.C.M., L.T.C.L.

During the year 1946-47 Mount Royal College Conservatory of Music has widened its sphere of influence and attracted students from all parts of Alberta, with some students coming even from points in British Columbia and Saskatchewan. The Conservatory has enjoyed a most successful season, due in large measure to the outstanding faculty of distinguished musicians and to the director, Mr. Cyril Mossop. The enrollment of new students has been exceptionally large, which in itself speaks well for the high standard of training given at the Conservatory. In fact, Mount Royal College offers facilities for music students equal to those of the leading institutions of Eastern Canada and the United States.

Students are prepared for the examinations of the Toronto Conservatory of Music; the Associated Board of the Royal Academy and Royal College of London, England; and also for the Western Board music examinations, affiliated with the University of Alberta. Many students enter for both the local and Provincial Musical Festivals. During the past several years students of the Conservatory have gained very high marks and commendation from outstanding adjudicators such as Dr. Staten, Dr. Peaker, Arthur Benjamin, Professor Colingwood and others.

The Mount Royal College Symphony Orchestra, under the able and expert direction of Clayton Hare, has achieved the standard of many professional orchestras. During the current season the enthusiastic members of his fine orchestra have attempted and successfully played exacting compositions such as Mendelssohn's "Italian Symphony" and "Fingal's Cave" overture, Mozart's "Jupiter Symphony" and Cesar Frank's "Symphonic Variations". This season has witnessed the inauguration of a Theatre Symphonic series of four concerts for the season, held in the Grand Theatre, to which the public has well responded. Talented advanced students of the Conservatory are given the opportunity of appearing as soloists with the orchestra at various concerts.

The Mount Royal College Junior Orchestra, also directed by Clayton Hare, has made great strides during the past season, both in regard to size and accomplishments. Besides giving

afternoon concerts at no less than five of Calgary's public schools, they also gave two very successful public performances, and gained high praise at the 1946 Musical Festival. This orchestra, which rehearses once a week, affords a very valuable means of training younger students in orchestral technique and ensemble playing. The immense value of ensemble playing cannot be overstressed; it contributes substantially to any student's practical musicianship, developing a keener eye, ear and general co-ordination.

Among the many attractive features of great benefit to the music student at the Conservatory, are the frequent concerts and recitals that are given during the year in the college Auditorium. Important works of the great masters, instrumental, vocal and ensemble are performed by students and professional musicians. These concerts and recitals are a real advantage to the student as he has the opportunity of hearing and becoming acquainted with many musical works, as well as the important experience of performing himself. Students from all grades are permitted to perform at special Students' Recitals, and these are of inestimable benefit, giving an incentive to greater effort on the part of the student and also affording an opportunity of developing self-confidence, essential for a good performance.

All possible provision is made for students, especially those studying piano, to gain experience in ensemble playing. The periodic Students' Ensemble Recitals feature two piano ensembles, violin duets and quartettes, and dialogues including scenes from Shakespeare's Plays by the Speech Department.

The Faculty also give a number of Chamber Music Recitals which have become increasingly popular with the general public. During the past season four excellent and varied programmes were given, featuring piano quintettes by Brahms and Dvorak, and readings by members of the Speech Department. Two of these programmes were presented for the Calgary Women's Musical Club at Wesley United Church. These Chamber Music Recitals make an important contribution to the musical life of Calgary and the public have attended in large numbers to hear the works of the lesser known composers as well as the masterpiece of the great.

Special Theory classes are conducted by Mr. Leonard Leacock, for which there is a small charge. Aural training classes are conducted by Cyril S. Mossop, for which there is no charge to the student.

The following comprise the personnel of the Conservatory's teaching staff.

- Cyril S. Mossop (*Director*), L.T.C.L.,
A.T.C.M.—*Organ, Voice, Piano, Theory.*
Dorothy Swetnam, Mus. Bac.—*Piano*
Clayton Hare—*Violin, Conductor of Orchestras.*
Norma Piper—*Singing and voice production.*
Leonard Leacock, A.T.C.M., L.R.S.M.—*Piano*
and Theory.
Ruth Youngblood, L.T.C.M., L.R.S.M.—
Piano and Theory.
Patricia Norris, A.R.C.M.—*Violin and Viola.*
Rose de Molnar, R.A.M., R.A.C.M.—*Piano.*
Marie Meyers, A.T.C.M., A.Mus., L.Mus.,—
Piano and Theory.
Jack Hepburn—*Piano and drums.*
E. M. Harvey—*Cello and Bass.*
Robert Dalton—*Trumpet and Tuba.*
Arnold Murray—*Flute.*
Jeff van Stockum—*Clarinet and Saxophone.*
Douglas Hepburn—*French Horn.*
Russell Hepburn—*Trombone.*

Speech and Drama

The Speech and Drama Department of Mount Royal College, under the direction of Leona F. Paterson has had a most active and successful season. The greatly increased enrollment has made it necessary to enlarge the teaching staff, and Mrs. Paterson has been assisted by Miss Wanda Dunkley and Mr. Harold M. Paterson.

In addition to the excellent speech training offered in this department, students are prepared for both theory and practical examinations of the Toronto Conservatory of Music, and the measure of success has been most gratifying.

Special emphasis has been placed on the development of Creative Dramatics and Choral Speech among the younger students, and as a result of the efforts in this direction two delightful public performances were presented. These were, "The Princess Who Dreamed Too Much" by Elsie P. Gowan, and "Old Pipes and the Dryad," by F. C. Bowen.

The report of dramatic activities would not be complete without mention of the melodrama presented by members of the Mount Royal faculty, at the faculty dance. The skit was written by Mr. Owen Kelly, and the cast included, Miss Alma Shaw, Miss Frances May, Mr. and Mrs. Ray Salt, Mr. A. Snowdon, Mr. R. W. McCready. Mr. Kelly is also directing the one-act play, "Buddy" to be presented later in the season.

A recital by the speech students of Leona Flegal Paterson and Wanda Dunkley was held in December, in the College auditorium. Readings were given by a number of students at the various student recitals which were held throughout the winter term.

Thirty-eight students of the department have registered for mid-term examinations in the Toronto Conservatory of Music speech department, and eleven students wrote the theory examinations in February 1947.

SPEECH DEPARTMENT

- Leona Flegal Paterson (*Director of Speech and Drama*)—*Speech, Creative dramatics, etc.*
Harold Paterson—*Literature and Theory, Public Speaking and good English.*

WORDS

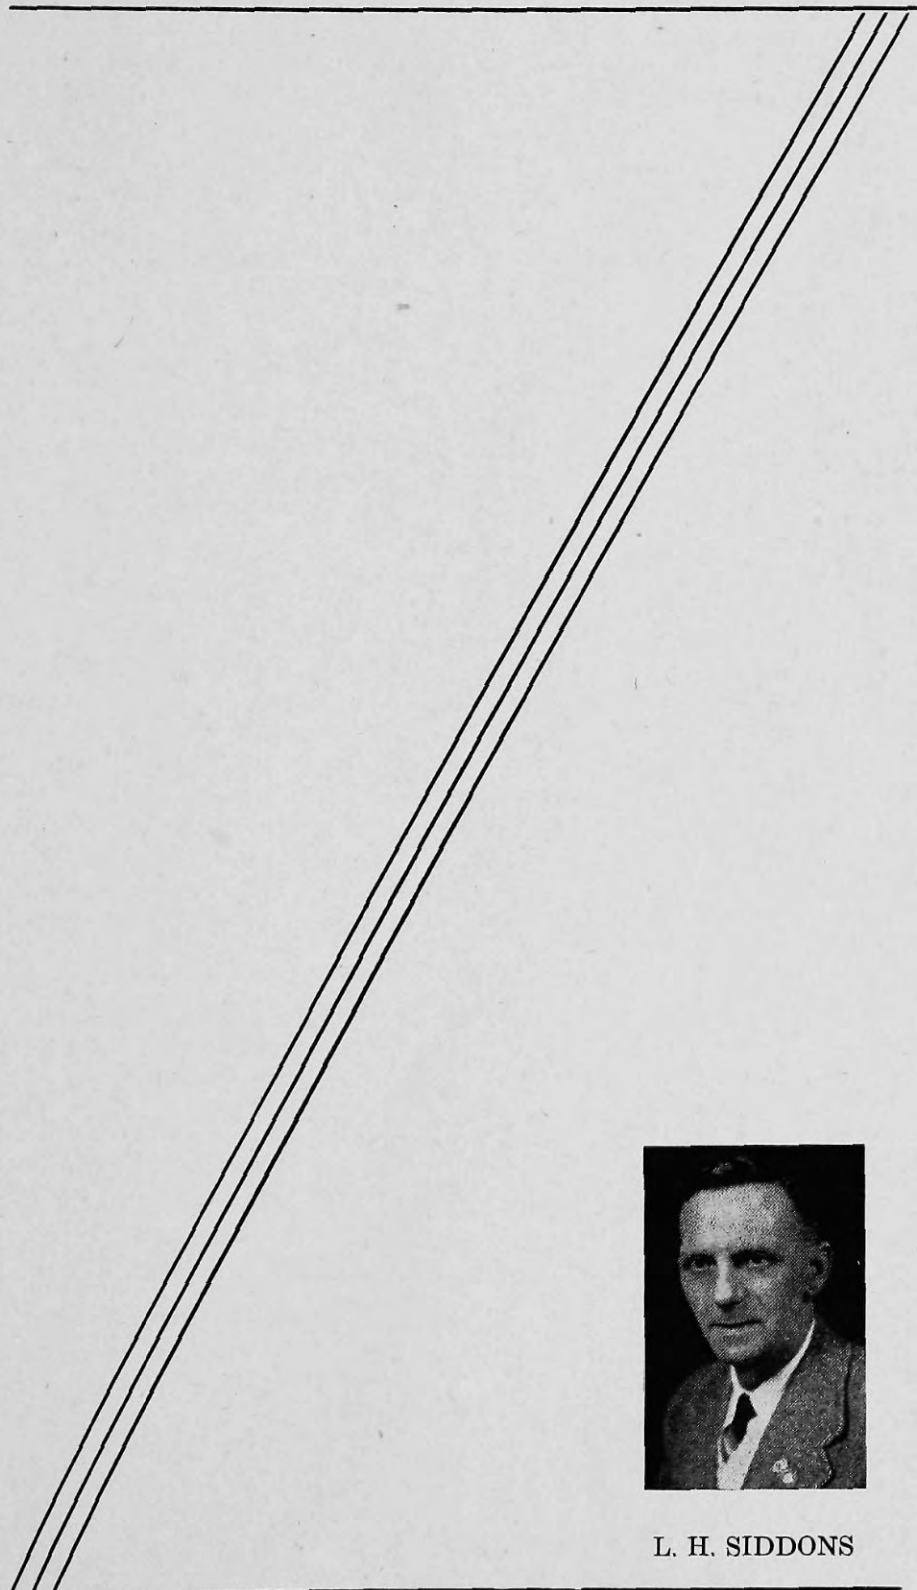

My Mother has the prettiest trick
With words and words and words,
Her talk comes out as smooth and sleek
As breasts of singing birds.

She shapes her speech all silver fine
Because she loves it so
And her own eyes begin to shine
To hear her stories grow.

God wove a web of loveliness
Of flowers and trees and birds
But made not anything at all
So beautiful as words

They are as fair as bloom or air
They shine like any star
And I am rich who learned from her
How beautiful they are.

Sports

L. H. SIDDONS

Sports

By DAVE TOMLINSON

"Out of the dark and into the Light"—a very appropriate slogan for Mount Royal College, who, until this year, has usually held down the 'cellar position in shows of her athletic prowess. With the help of an exceptional school spirit, an enterprising staff, and a very efficient director, this year Mount Royal has emerged out of the valley of unknowns, and put herself on the list of heavy contenders for championships. The highlights of interest for most of the student body and staff, have been Basketball, Hockey and Bowling in that order.

HOCKEY

Mount Royal set their sights on the Championship and began a struggle with eight other well managed, well organized teams. Some of these boasted minor league players. Not at all daunted our boys struck out and very nearly won. As a matter of fact they clinched a berth in the playoffs, but due to a postponed game, were unable to continue. Mount Royal joined the intermediate city league, winning four games, losing three, and tying one. Had fuller support been given to Doug McDougall, in his efforts to ice a championship squad, no doubt the team would have done a lot better. Twice a week the team held practices at Mewata Rink, and, had the weather held could have enjoyed many more games.

Calgary Intermediate Hockey League Stand-
ing to time of Playoffs.

Team	Games	Won	Tied	Lost	Points
Fire Department...	8	8	0	0	16
Can. Legion.....	8	7	0	1	14
Sunnyside.....	8	5	0	3	10
North Hill.....	8	4	1	3	9
M.R.C.....	8	4	1	3	9
C.P.R.....	7	2	0	5	4
Street Railway....	7	1	1	5	3
Tech.....	6	1	1	4	3
Metals Ltd.....	8	0	0	8	0

SENIOR BASKETBALL

Ably coached by big Jeff Mortimer of the R.C.M.P. the seniors this year had a very successful season having won 7 and lost 2 of their games in the city senior league.

The team was captained by Mus Murdoch and the outstanding performers were sharp-shooting Ross Pierce, playmaking "Buck" Buchanan and nimble Murray Tempest, the backbone of the defensive.

The team did much better than expected against the better practiced Bears and Dari-Rich. Mount Royal relying at all times on a great team spirit to see them through

In the semi-finals Mount Royal outfought Harold Brook's Dari-Rich team in a hectic three game series featuring a free-for-all in their last meeting.

The Bears managed to beat out Mount Royal in the finals in two straight games. However, these games were very closely conceded, and the outcome was never decided until the dying seconds.

After this series the club went on into the Provincial, intermediate playdowns.

JUNIOR BASKETBALL

The 1947 basketball season painted a bright picture for the Mount Royal Junior cage crew. The team had an outstanding record of 16 wins and 4 defeats. They won the Junior men's championship of Calgary and numerous exhibition games against the local high school teams. Mr. Mortimer, the team's popular coach, should be given a great deal of credit for their success. L. H. Siddons proved to be a very capable manager. The team was led by two stellar guards, Walt Johnson (captain) and Jack Edgar a defensive stalwart. Don Kennedy, Bill Kienholz and George Cahoon were the outstanding sharpshooters on the forward wall, while Ernie Gare and "Olie" Jensen provided staunch replacements.

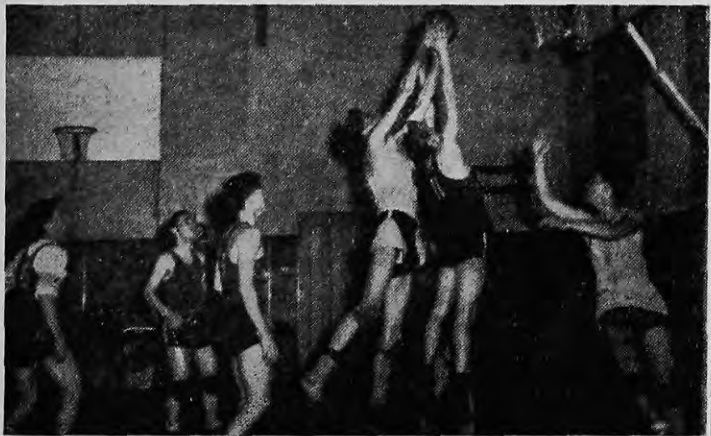

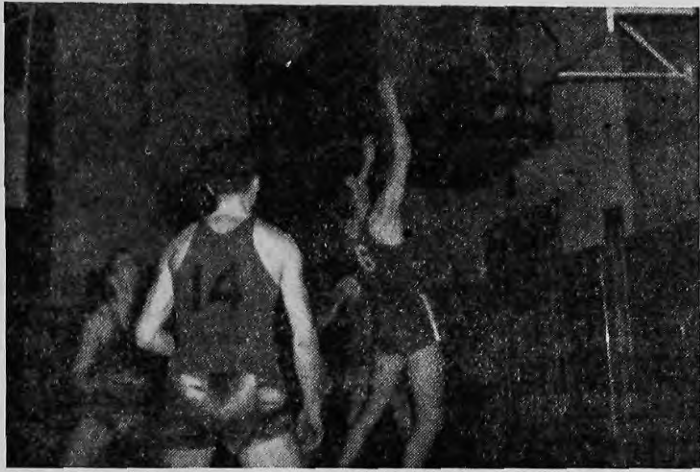

The juniors were extended to three games in the city finals by the East Calgary Recs and showed great courage in winning the final two games after dropping the opener by a slim margin.

After winning the city championship the team progressed into the provincial playdowns in a quest for the provincial title.

BOXING

This sport has proved very popular and three boys, at least, will compete for provincial honors in the Amateur ring. Mount Royal's hopefuls for the above mentioned match are George Hansen (lightweight), Keith Lake (welterweight) and Paul Brosseau (light heavy). One exhibition has been held which proved that good results have been obtained by Mr. Siddons.

The Boxing Club is fortunate in having Mr. Siddons as a trainer-instructor. Prior to the war he promoted amateur Boxing and during the war refereed all the inter-forces matches in the Shilo-Brandon-Winnipeg division. His three sons were all boxers in the army. One, winning the Canadian title in 1940 also was runner-up for the Canadian Overseas title. Two of them represented the Combined Canadian Services team against the U.S.A. team during the latter part of the war.

Sports - continued

HOUSE LEAGUE BASKETBALL

Six teams have participated, 45 games completed and the Playoffs are in full swing for the Cup and Crests.

Score for HOUSE LEAGUE BASKETBALL FINAL STANDING

Team	Games		For	Against	Points
	Played	Won			
Terriers.....	15	9	188	178	18
Grads.....	15	8	266	222	16
Beavers.....	15	8	252	217	16
Scrubs.....	15	7	199	208	14
Royals.....	15	7	196	240	14
Hawks.....	15	6	188	232	12

Competition has been keen as the above chart proves, for all teams were striving to make the first 4 playoffs spots. The Grads and the Royals had 4 girls on each team with a Junior league player and one other boy to give a strong challenge to the 4 boys' teams.

It has highlighted all sports to date for 75 per cent of those participating had never played the game. After an amateurish start all settled down to play good ball. Incidentally the high point getter of the league was Maxine Bradshaw, captain of the College girls' team. With the advent of an up to date gymnasium Mount Royal College should prove to be a home of basketball and all sports. Injuries have been few and far between, then only of a slight nature. Games for the most part have been played in the armouries on a cement floor which as a rule tends to deter the game on account of injuries.

TENNIS

It is hoped to have two courts in operation this year. A tournament will be held to keep interest among the student body.

SOFTBALL AND FASTBALL

This game should prove to be on par with Basketball. P.T. classes have already been playing indoors. It will be pushed to the limit.

FLOOR HOCKEY

Will be played in the Armouries on the Basketball court. A House League will operate immediately following the House League Basketball finals. Requirements for the game—felt puck, broom sticks 4 feet long, nets 3 feet by 6 feet, played as hockey with the same number of players. Properly officiated this game will rate above all others. Rules will be strictly enforced, in which case injuries will be nil. Seven teams are expected to operate.

BOWLING CLUB

The Mount Royal Bowling Club was formed shortly after the start of the school year. It consists of twelve teams and approximately sixty members. Every Monday afternoon these hardy souls form a pilgrimage to the Olympic Bowling Alleys, and there, while the pin boys quake in their boots, attempt to knock over the elusive five pins.

The whole club is run under the capable guiding hand of Fred ('two bits please') Wilkins. This is the lad who is responsible for leasing the alleys, figuring averages, assigning alleys to the teams, rounding up scores and money, and the many other tedious jobs that go with a bowling club.

The Bowling Club includes a general cross-section of the College. Included are high school students, university students, commercial students and the staff. The staff (with Mr. Salt giving a lecture on "The Advantages of Using Applied Trigonometry in Bowling" and Mr. Snowdon uttering a few choice French colloquialisms at the pins) manage to hold their own with the students.

Each team consists of a captain and four members. With the captain lies the responsibility of seeing that his team all shows up. Also, at half-time it is up to him to give his team a "pep-talk" and encourage them to get more "strikes" (after which he promptly goes up and "blows a frame") However, this is not held against him as everyone is out for the enjoyment of the sport and not merely for wins. When all is said and done, the Bowling Club provides a pleasant relaxation and inter-mingling with fellow students.

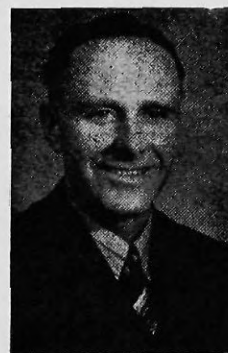

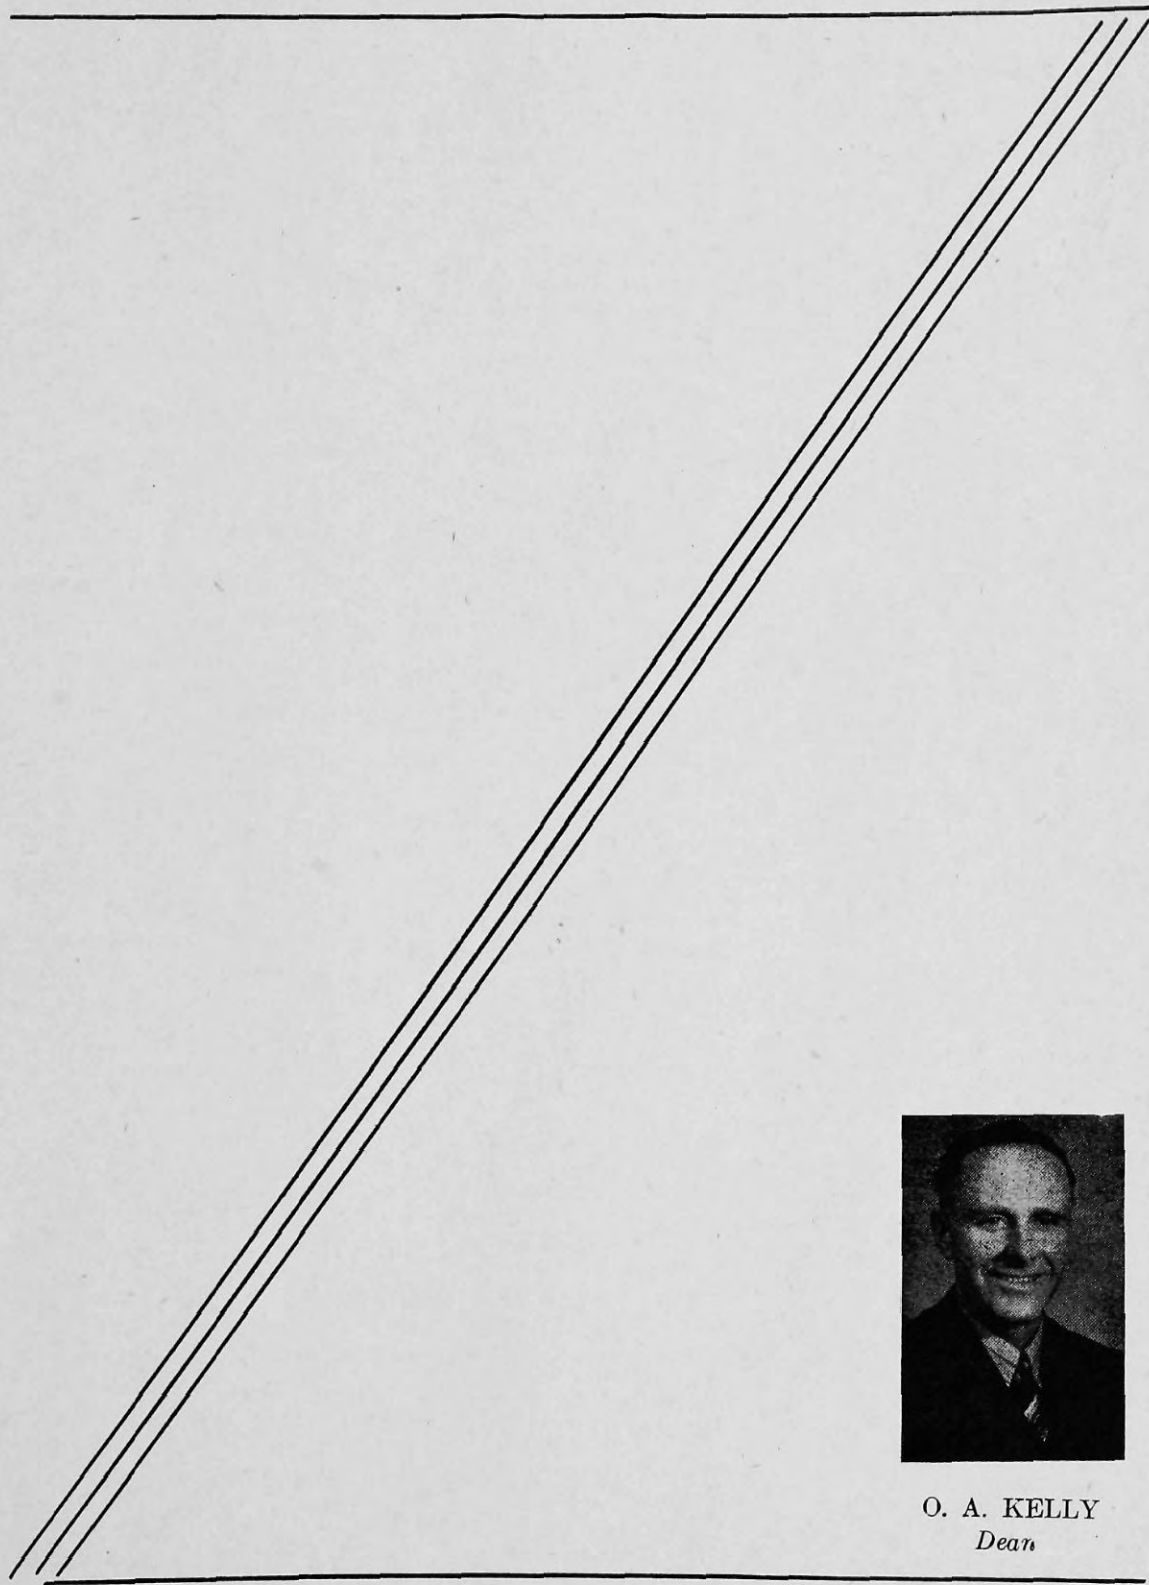

By REX HEITERS

FINAL NOTES ON SPORTS

Mr. Siddons, Director of sports, expects a great uprising in all sports with the advent of an up-to-date gymnasium. A carefully drawn up schedule will be prepared to include all games in season—Boxing, Basketball, Bordenball, Badminton. **Group games**—Handball, Floor Hockey, Physical Training, Indoor Softball, Tabloid Sports, Tug-of-War, Volleyball, Giant Volleyball, Rope Climbing and Wrestling.

Preparation for Soccer, Rugby, Track and Field, Softball, etc., will also be carried out. Strict supervision to be carried out to keep injuries from occurring. So far only the odd sprain has been evident. A well prepared program ensures all students of filling in their spare moments with healthful, clean, character building sports.

High School

O. A. KELLY
Dean

MAUREEN FULLER

Hoosier Sask.

Favorite Saying—What a weekend.
Pastime—Riding in a "Rainbow".
Ambition—To be a farmerette".
Activities—Ski-ing.
Pet Aversion—Men.

MELVIN FREDELE (Mel)

Carstairs

Favorite Saying—Who's got a cigarette?
Pastime—Sports
Ambition—Has none
Activities—Basketball
Pet Aversion—School

STANLEY FULLER (Pa)

Indus

Favorite Saying—Hey Ma.
Pastime—Setting pins? ? ? ?
Ambition—To get to school by 8:30
Activities—Camera snooping
Pet Aversion—Women who scratch and bite

MARLENE GARROD (Gary)

Calgary

Favorite Saying—I'll beat the pants off you
Pastime—Looking for a likely man
Ambition—To get all her homework done
Activities—Throwing parties
Pet Aversion—Show girls

AGNES GIBNEY

Calgary

Favorite Saying—Didn't get a letter today.
Pastime—Knitting diamond socks.
Ambition—Teacher.
Activities—French—French—French.
Pet Aversion—To be snowed—in.

HARVEY GALBRAITH (Gal)

Calgary

Favorite Saying—My names Harvey but that's alright.
Pastime—Riding on street cars and Sleeping.
Ambition—To get up in the morning before Siddons comes back.
Activities—Boxing (sure), Joan.
Pet Aversion—Wild Women.

ERNEST GARE (Gare)

Rocky Mountain House

Favorite Saying—Don't lip me off.
Pastime—Boxing and singing.
Ambition—To sing like Crosby.
Activities—Sports, indoor and outdoor.

DORIS GREEN (Doris)

Herronton

Favorite Saying—Who wants to borrow my ink this time.
Pastime—Embroidering and singing.
Ambition—Nurse.
Activities—Studying.
Pet Aversion—Latin.

LOIS HANNA

Calgary

Favorite Saying—Oh. Great
Pastime—Coming in late for Physics.
Ambition—B.Sc. and Nursing.
Activities—Working.
Pet Aversion—Trig.

KEITH GORDON Keith.

Calgary

Favorite Saying—Take Bessie now—
Pastime—Fixing Bessie and skiing.
Activities—Swimming.
Ambition—Get Bessie to go over 95
Pet Aversion—Going bear hunting.

VAUGHN GRAMMS (Van)

Beiseker

Favorite Saying—Wait tili I ask Twy.
Pastime—Twy.
Ambition—Big Beiseker farmer.
Activities—Twy. Getting Jerry dates.
Pet Aversion—Telephone poles.

DORTHY HARSE

Calgary

Favorite Saying—Hasn't one.
Pastime—Reading
Ambition—Nurse
Activities—Tennis
Pet Aversion—Homework.

GERALDINE HART (Gerry)

Favorite Saying—You've had the course.
Pastime—uuuu-ha.
Ambition—to hook a man.
Activities—(See pastime and Ambition).
Pet Aversion—women.

Stettler

WILLIAM HAY (Alphalfa)

Favorite Saying—Bone dome.
Pastime—Hockey.
Ambition—Unknown at present.
Activities—St. Hilda's dances.
Pet Aversion—Noises from above.

Airdrie

DON HEIMBECKER

Favorite Saying— ----
Pastime—Photography, sports.
Ambition—to travel abroad.
Activities—Same difference.
Pet Aversion—Women.

Calgary

MARION HENDERSON (Hendy)

Favorite Saying—I nearly died.
Pastime—Looking for murder programmes.
Ambition—Dietition.
Activities—Going out with sailors.
Pet Aversion—Being called a peroxide blonde.

Black Diamond

VERLA HOPKINS (Hoppy)

Favorite Saying—For gosh sakes.
Pastime—Sleeping.
Ambition—To keep off probation.
Activities—Studying and wolfig.
Pet Aversion—Wearing clothes.

Glacier B.C.

REX HEITERS (Bubbles)

Favorite Saying—Now take MacDonald—.
Pastime—Anything but study.
Activities—Sat-teen executive, yearbook.
Pet Aversion—Car grills.
Ambition—What means this word.

Calgary

PHILIP HORODEZKY (Phil)

Favorite Saying—Oh, How vulgar.
Pastime—Having fun.
Ambition—Dentist.
Activities—Wrestling, boxing.
Pet Aversion— Women.

Calgary

JOY JACKSON (Jackson)

Favorite Saying—It's phenominal.
Pastime—Skiing and having a WILDE time.
Ambition—To marry a millionaire.
Activities—Going to Banff to ski?
Pet Aversion—Bells.

Vancouver

RAY JEFFEREIS (Ray)

Favorite Saying—I don't get it.
Pastime—Trying to find out where that 3 cents went.
Ambition—Private Secretary.
Activities—Studying and sleeping.
Pet Aversion— Cowboy music.

Vancouver, B.C.

PAUL HUMPHRIES (Humph)

Favorite Saying—You should have been there the weekend that—.
Pastime—School (in his spare time.).
Activities—Going to the ranch.
Ambition—To go south to Mexico.
Pet Aversion—Paying debts.

Calgary

HAROLD IRVING

Favorite Saying—Wait till i get Baldy.
Pastime—Waiting for Baldy.
Ambition—To major in sports.
Activities—Rugby, basketball.
Pet Aversion—Referees on the basketball floor.

Calgary

SHIRLEY JOHNSTON (Shirl)

Favorite Saying—That was a subtle remark.
Pastime—Being a good girl.
Ambition—Nurse.
Activities—Sing and Haying.
Pet Aversion—E.J.'s red glasses.

Calgary

SYBIL JOHNSTON

Favorite Saying—Oh, Heavens.
Pastime—She doesn't do anything.
Ambition—U. of A.
Activities—Badminton.
Pet Aversion—Squeaky shoes.

Calgary

ROBERT JENSEN (Ollie)

Favorite Saying—I've got the makings.
Pastime—Snooker and basketball.
Ambition—Snooker shark.
Activities—Laughing with Gare.
Pet Aversion—Sea foods.

Innisfail

YALE JOFFE (Joe)

Favorite Saying—Bring your can opener and come over to dinner.
Pastime—A.2A
Ambition—Take over the Garden Clothing.
Activities—Working at the G.C.
Pet Aversion—Mr. Snowden's classes.

Calgary

JOYCE JONES (Jonesy)

Favorite Saying—Dad's calling for me, we're going shopping.
Pastime—Court Marshalling.
Ambition—Big time rancher.
Activities—Riding.
Pet Aversion—walking home.

Calgary

GWYNNETH KNOWLTON (Gwynn)

Favorite Saying—I think it's all very dumb.
Pastime—Writing to Bob.
Ambition—To get her degree in nursing.
Activities—Studying? What?

Activities—Reserve army and collecting.

Pet Aversion— ---

The following students did not complete the fall term at Mount Royal College.

Betty Mae Wylie—*left before Christmas.*

Russell Pawluck—*left in the fall.*

Sheila Jones—*left in November.*

This Modern Age

Many people say that we, the younger generation, are living in a modern age; an age, described by Mr. Bowering, as one of 'diamond-socks' and 'Kleenex'. Other people, not so broad minded or jovial describe it as an age of 'bobby soxers' and 'juvenile delinquents'; of 'Jazz fiends' and irresponsible young urchins'. We, the above described, bear the brunt of these attacks and are expected to profit by the experience of these people who have passed through this stage and therefore know all there is to know about it. Some of us can see their reasoning, others cannot.

We are living in a fast moving age, an age of turbo-jet engines and atomic power, an age that demands a chance to forge ahead. Of course this advance should be controlled but it should not be curtailed. People try to retard this advance by saying that it is not good and that we would be better off back in the Stone or Bronze age. Science is making life more comfortable but some people still choose to think that the world is nearing a state of disruption.

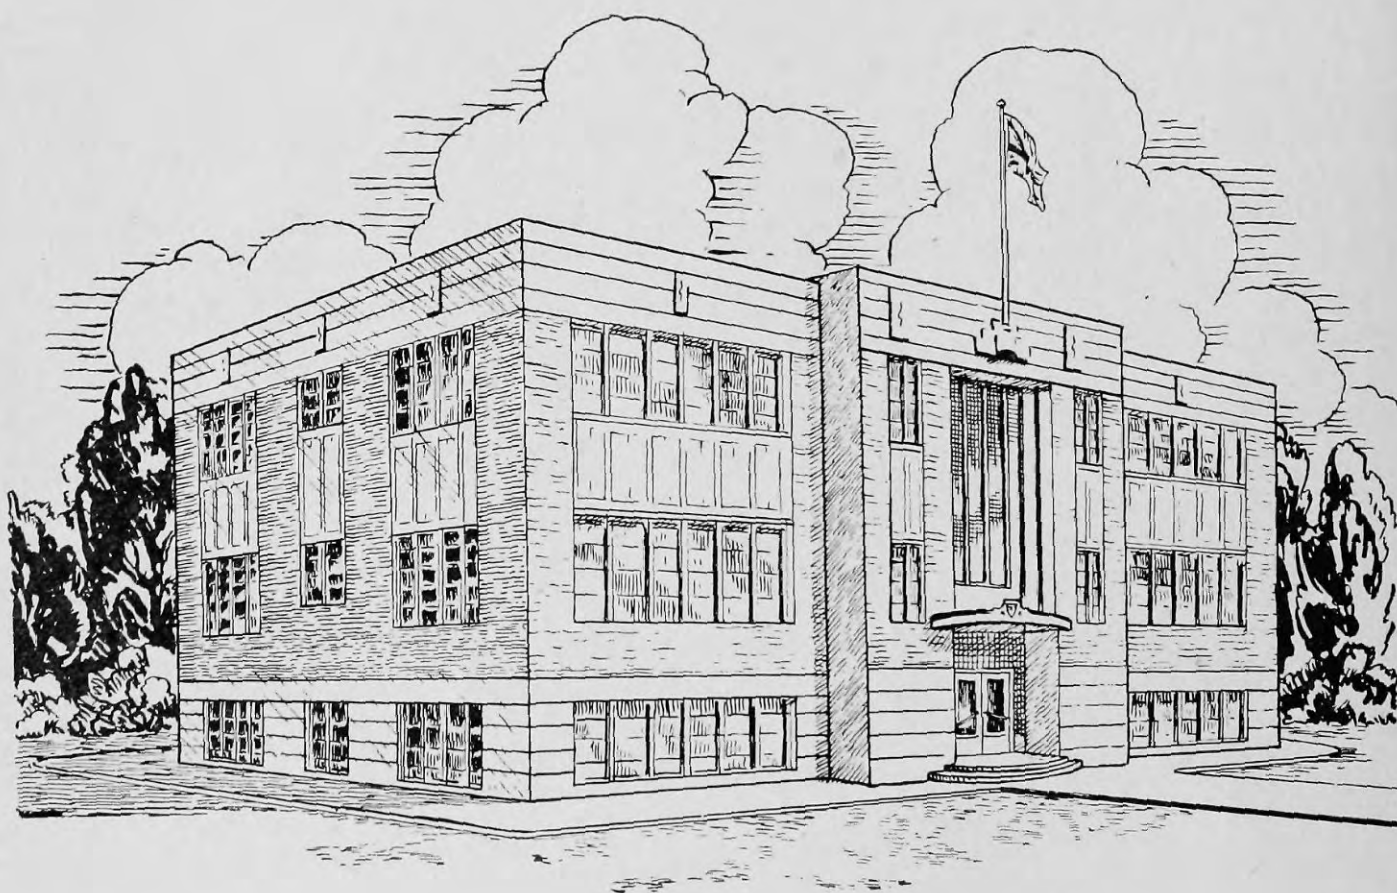

There are some who believe life is improving inasmuch as our standard of living is higher than it was twenty five years ago. Others look at it in the financial light and see the glitter of much fine gold—much more. Still others see

that we are swiftly closing the international gap to a point where they will be on an international basis. We hope and think that we have the foundation of this in the U.N.O. However, because of the petty grievances of various nations, we are not forming a firm international understanding.

What is youth's place in this new world? The youth of today is the hope of the world of tomorrow. Within this youthful group we have the international organizers and leaders of tomorrow, the scientists, the medical experts, the spiritual leaders, the technicians, the laborers, and the rest of the people who look forward with confidence and optimism to a better world.

Shall we the youth accept the challenge to work for the benefit of mankind? Many have said that the future rests with the control of the atom and better world understanding. The future rests with the youth of today; the youth of this modern age; and they will determine the outcome of tomorrow. Perhaps it will be an Utopia, perhaps chaos—who knows? We, the youth of today, are not as 'feather brained' or 'bone-headed' as we may often imply by our actions. Our elders went through the same stage as that through which we are now passing and they snapped out of it! So will we! The future rests with those who prepare for it. Youth of this modern age—Prepare!

Architect's Sketch of Kerby Memorial Building

The Kerby Memorial Building

The Board of Governors of the College decided to proceed with the erection of the Kerby Memorial building at once as the accommodation is needed for our expanding work. It will be located at the corner of 7th Avenue and 11th Street West. The front will be directly opposite the Main building. The houses on this site are being moved off and construction will be under way in April. A contract has been given the Hornstrom Brothers Contractors and they have promised the completed building by the summer of 1948.

The Architects are Stevenson Cawston and Stevenson and they have designed a very beautiful building that will provide Administrative offices, Teachers' rooms, Students' common room and snack bar, Kerby Memorial chapel and fourteen laboratories and classrooms. Associated with this building (but a separate project) there is a modern Gymnasium with equipment room and director's office.

The building will be constructed of steel, reinforced concrete and faced with tapestry brick. It will be fireproof and one of the most attractive buildings in Calgary. It is being erected as a memorial to Dr. G. W. and Mrs. Kerby who were the founders of Mount Royal College. Dr. Kerby was Principal for over thirty years and the influence of his life of friendliness and goodwill is still felt around the College halls.

You Can't Beat this Shopping Protection!

The protection EATON'S provides for your shopping dollar is solid and real and sincere. It simply amounts to this: no matter what you buy at EATON'S, be it fashions or furniture, pins or pianos, you can have your money back if your purchase does not thoroughly satisfy you.

That's the straight-talk terms of the famous
EATON guarantee of

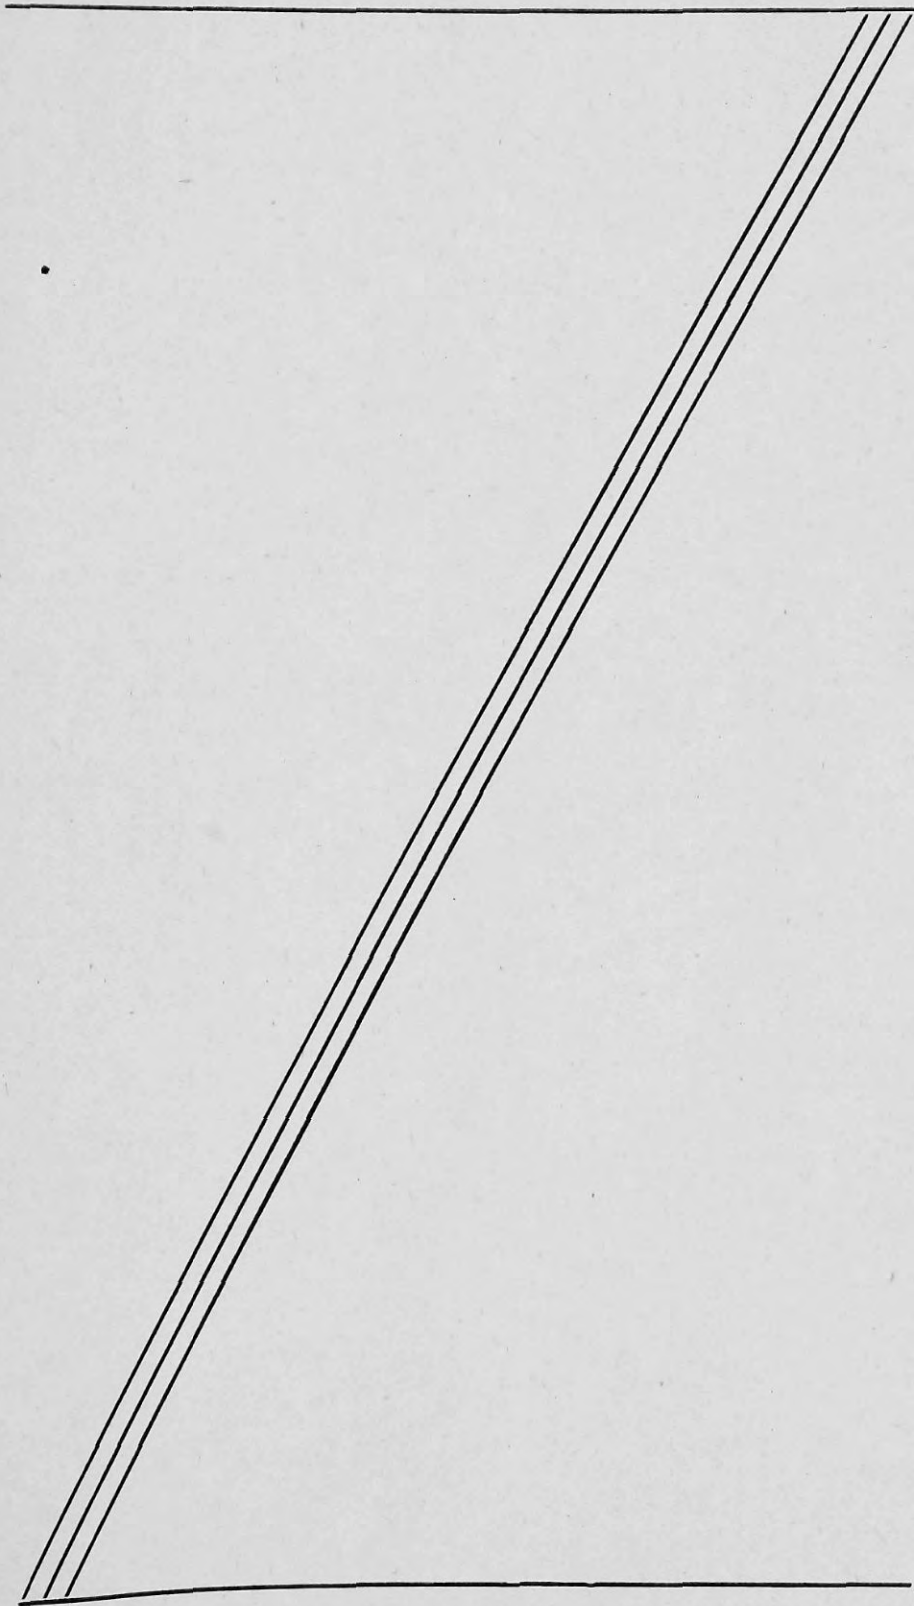

"GOODS SATISFACTORY OR MONEY REFUNDED"

It applies to price, to quality, to value and performance, and is a sturdy safeguard for you against unwarranted price advances in these days of relaxing Government controls.

It has been our principle of doing business since this company was founded in 1869 and in seventy-eight years of operation literally millions of Canadian shoppers have agreed that "nothing could be fairer."

Social

Open House

November 15th, 1946

Social Highlights

OPEN HOUSE

Many parents and friends attended open house at Mount Royal College Friday evening, November 15th, to view the college and see classes in operation. Guests were received by Dr. G. D. Stanley, Chairman of the Board of Governors; Mr. Justice C. J. Ford, Vice-President; Dr. J. H. Garden, Principal; and other members of the Faculty.

Conducted tours were arranged to classrooms and those which were outfitted in Mewata Huts, Boys and Girls residences, the laboratories, library and Conservatory of Music. Examples of classroom activities for Chemistry, Physics and Engineering students were displayed.

SOCIAL

By JENNIE WELYCHKA and JOAN THOMSON

The auditorium of Mount Royal College has thus far been the scene of many dances which were enjoyed by the students and their friends. The credit for the success of these dances is greatly due to the many students who gave their time and talent towards the decorations, programme and refreshments.

FACULTY RECEPTION TO STUDENTS

In former years this dance has been open to the students and their parents, but owing to the large enrollment this year it was held only for students. The music was supplied by the Rhythm Makers with Mr. Neatby on the vocals. Dress was optional. Mr. Kelly was Master of Ceremonies and the faculty did everything in their power to make us feel at home.

HARDTIME DANCE

The hardtime dance, sponsored by the newly organized Booster Club was one of the most successful we've had. Costumes were the highlight of the evening with Miss Argue in a sack and Rex Heiters in a barrel, taking top honors as the most originally dressed. Rhythm Makers again supplied the music. With F. K. McKay as Master of Ceremonies novelty dances and stunts were the order of the evening.

SNOW SHOE SHUFFLE

Although the weather was quite cold many turned out for this dance. Sponsored by the Dramatic Club on very short notice it went off considerably well. A P.A. system was used for music and many musical selections were shown on a screen which also could be danced to. Prizes were awarded for novelty dances and Don Woodcock was Master of Ceremonies. Refreshments were served.

CHRISTMAS DANCE

Because it was the last dance at the college for 1946 much work was put on it. With the hall decorated in red and green streamers, a large Christmas tree with colored light standing in the corner everyone was in time with the holiday season. With the Rhythm Makers music everyone enjoyed jitterbugging and waltzing. Refreshments of icecream, cake and coffee were served halfway through the evening and dancing continued until 12:00 o'clock. Thanks should be given to the high school for sponsoring this dance.

SPORTS DANCE

With a banquet held earlier in the evening the Sports Dance was a great success. Music again was by our school orchestra. The decorations in white and green were very symbolic of St. Patrick's. Coffee, sandwiches and cake were served. at intermission and dancing continued until 12:00 o'clock and everyone enjoyed themselves.

Valentine Dance

With the School Orchestra conducted by Mr. Cumming, playing for the first time, many attended this dance. Mr. Kelly was Master of Ceremonies and with his Irish sense of humor many laughs were had. After refreshments were served a skit was put on by Mr. Kelly, Mr. Snowdon, Miss Shaw, Miss May, Mr.

McCready and Mr. Salt. This was hilarious and the roof was nearly brought down from laughter and applauding. During the evening Betty Giddy and Bill Carr were awarded prizes as Queen of Hearts respectively. Dancing continued till one o'clock.

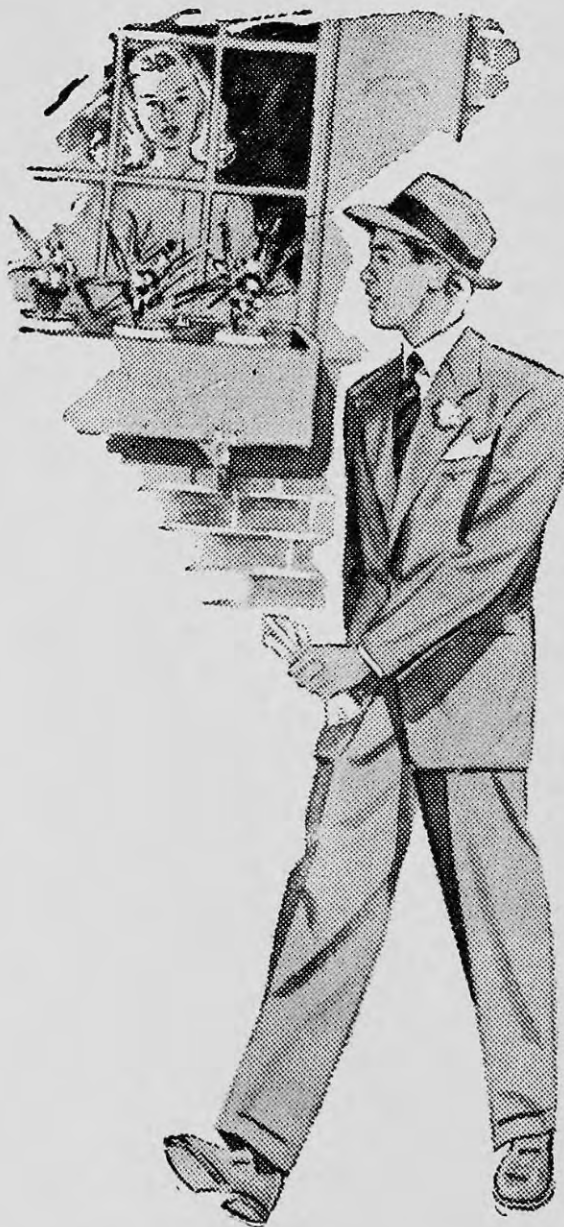

SADIE HAWKINS DANCE

The commercial class, sponsors of the Sadie Hawkins Dance set the pace of "Dog Patch" with the Sadie Hawkins race Friday morning and the dance at night. The girls had to do the honors by asking the boys to the dance and footing all the bills. Music was by the Rhythm

Makers. With Chic Young as Master of Ceremonies the programme went off splendidly. The decorations were wonderful with scenes of Daisy Mae's and L'il Abners lining the walls. It can safely be said that everyone who attended this dance had a very good time.

Commercial

J. W. HEPBURN
Dean

SHIRLEY ARMSTRONG (Shirl)

Calgary

Shirl, who makes her home in Calgary, hopes to become a secretary in a large office. Her hobbies are collecting records, swimming, and dancing. The S.D.C. is lucky to have this friendly girl for a member. We know Shirley will make a success of her venture into the business world.

BETTY BENSON

Macleod

Betty is a girl with a bright smile, and lovely dimples. She left us at Christmas to take a position, and we hear she is doing fine.

LOUISE BERGER

Nanton

This attractive Norwegian lass comes from Nanton. She tells us that her one ambition, among others, is to attend the U. of A. next year and hopes some day to graduate with her B.Sc. of House Ec. (Textiles). Her extra curricular activities, which are of a variety include bowling, boogie, dancing, and dinners at the York. She takes an active part in all school activities and is determined to score 200 in bowling in the very near future.

PEGGY BIRD

Winnipeg

This cute little dark haired girl came to M.R.C. from Winnipeg. Much to our regret she left us at Christmas to complete her course in that city, and we are told that wasn't her only reason for returning to that city. We all miss you Peg.

HAZEL BOND

Beaverlodge

Hazel is a short cute brunette with a quaint friendly manner. Her greatest ambition is to travel and see places of interest. Her hobbies consist of knitting and going to musical concerts. She takes an active part in the choir of Knox United Church and expects to be a member of The Eastern Star.

MARILYN BOUCK

Calgary

Marilyn came to us from C.C.I. She has many interests some of which are the Kappi Zi Sorority, Calgary Ski Club and Marilyn is another of our representatives for the Eaton's Jr. Fashion Council.

MAXINE BRADSHAW Max.

Cardston

Vim, vigor and personality, has our Maxine. Max, as she is sometimes known is very active in sports. Her ambition is to be Mr. Siddons sports supervisor. Maxine is liked by all and capably handles her position as "Treasurer of the Booster Club" and Girls' Sports Representative.

JOYCE BURTON

Medicine Hat

Joyce is a happy little red head from "The Hat". Her ambition is to be a first class secretary and we know she'll make it. Joyce's many activities include—dancing, singing with the orchestra and keeping the Commercial Social Activities and the Dorm Council running smoothly.

LOUISE BYERS

Calgary

Louise has been with us for two years. This pretty blond is a member of the Delta Phi Gamma Sorority. Next year she hopes to enter U.B.C to study under the Faculty of Household Economics.

SHIRLEY CARRIER

Hanna

Shirley didn't stay with us for very long, as she left early in December.

GEORGE CAHOON

Cardston

Another one of our athletic boys, George is a star player on our basket ball team. Besides this he's treasurer in the Student's Council. Through all this business experience we really expect big things from him in the "Business World".

BERYL CHARMAN

Calgary

This charming lass was born in Calgary. Beryl is an active member of the Alpha Sigma Rho Sorority and Young Peoples. She is excellent at the art of sewing and her favorite activities are dancing skating and tennis. She is aiming to be a doctor's or dentist's assistant. May we wish her the best of luck.

HELEN CURRIE (Dimples) **Drumheller**
 Helen, known by all her friends as Dimples, is a very popular girl around the dorm. She has no particular ambition but would like to graduate in June and secure a good position. Her hobby is fancy work and she likes to read. She takes an interest in Music too.

JAMES DOBBIN (Jim) **Calgary**
 Jim is one of our athletic boys, who specializes in hockey and golf, with football and bowling close at their heels. Occasionally he takes time off to study shorthand (his pet aversion). Someday he hopes to become a successful business man.

JANET EASTES **Ponoka**
 This happy little blond left us at Christmas time. We all miss her cheery smile.

MADELINE ELLIS (Maddy) **Calgary**
 A charming young and very popular girl around the college is Mt. Royal's own Maddy. She has taken an active part in most of the school activities. We know she will make a success in whatever she does because she has what it takes. Smooth sailing to you Maddy.

BETTY GIDDIE (Bett) **Waterton Lakes**
 Betty is a very attractive blonde whose home is at Waterton Lakes. Betty's ambition includes travel (to see the world) and perhaps Varsity. Bett's hobbies are so many it would be useless to name them. A trip across the bridge is always welcome. Dancing is important. Besides her heavy studies (hm.), Betty has her hands full with the Secretary's job in "Council," and dates—and trying to get Louise up in time for breakfast.

BARBARA HAY **Lacombe**
 (Barb.) has been with us for two years. She hails from Lacombe. Her ambition is to be a stenographer, but at present her interest lies around a certain announcer. Barb. likes to dance and swim. We wish Barb. the best of luck in whatever she undertakes.

EVELYN KLINCK (Evy) **Didsbury**
 Evelyn—known as Evy is from Didsbury, Alberta. Her ambition is to be a competent stenographer. Evelyn's hobbies are reading, collecting stamps and music. She is an active member of the Ranger movement. She also enjoys playing the piano for parties and concerts.

JOYCE LANCASTER (Lanky)

Calgary

Our Lanky is one of our best all round girls taking a keen interest in bowling, badminton and tennis. She also worked hard to help make our year book a howling success. Lanky is a member of the Delta Phi Gamma Sorority Alumnae. She hopes to work someday in the British Embassy and "see the world". Everybody will miss Lanky's cheery smile and pleasant personality when she leaves us next year. Best of luck and success.

FRANCES LAVIN (Fran)

Calgary

This ambitious little lady is loved by all who know her. Her main ambition (she tries to tell us) is to be a medical or dental assistant. She enjoys skating and cycling as her pastime and her favorite hobby is collecting souvenirs. Fran represents the graduates of Western High School at the "Cercle Francais." She is an active member of the Emuna Sorority.

ARLENE LEMMON

Calgary

Arleen is one of our representatives on the Eaton's Junior Fashion Council. Her ambition—to get Biology 2, in order to complete her metric. Pastime—Lynn.

DOREEN LINCOLN

Stettler

This little brunette's ambition is to be an efficient travelling secretary to a young, nice looking boss. Her hobby is staying out over week-ends without a pass, and has a nice collection of stuffed animals. Doreen is a good bowler, loves dancing and is also an excellent seamstress.

MURIEL MANAREY

Calgary

Our outstanding blonde, a girl who takes an active part in many of our school affairs such as being the very able secretary of the Booster Club. Muriel's main ambition is to be a success in the business world. She is one of the many of this year's students who hail from W.C.H.S. (Western Canada).

AUDREY MATTHEWS

Fernie B.C.

Audrey is another one of our Commercial students who left with Betty at Christmas. We surely miss you Audrey.

SADIE McCARGAR (Sade)

Calgary

A graduate of Western Canada High, is active in sports—her hobby is her hope chest—Ambition—to trap a certain pet Englishman with her jiving feet.

MARGARET McFARLAND (Marg)

Penticton B.C.

Margaret hails from Penticton B.C. Her ambition is to go to Yellowknife with Frankie: while her favorite hobbies are swimming cycling and movies. We wish Marg. the best of luck in her experiences.

EVA McWILLIAMS

Calgary

This little brunette was a graduate of Central High School and her ambition is to go to U. of A. to become a psychiatrist. Eva loves bowling, dancing, and collecting comical snaps. We wish Eva the best of luck.

JACQUELINE MERRIEN (Jackie)

Harpree Sask

Jackie is one of the or should I say "the" conscientious members of the Commercial Class. She is a little French lass so if any of you French students need any help, just call on Jackie. She can usually be found up before any other member of M.R.C., studying or typing.

JEANELLEN MOONEY

Plenty Sask

Recognized by her beautiful page-boy hair-do. Her hobbies are horse back riding and bowling. In her spare time she studies ceramics at the Coste House. We wish Jeanellen the best of luck in her work.

CATHERINE MORRISON (Cathy)

Stettler

Cathy, is one of Mrs. Thornton's Gregg girls. She's not so shy we all agree, But she fits right in at M.R.C.

VIOLET NEWTON (Vi) **Penhold**
 Vi hails from Penhold, Alberta. Her ambition is to be a doctor's assistant. For a hobby she collects snap shots and also likes horseback riding as well as dancing. She is an active member of the Central United Young Peoples Association. We wish you all the luck next June, Vi.

HELEN POLAND (Poly) **Drumheller**
 Yes, I'm happy to be alive—are words we hear from Helen regularly. She's quite a gal, and lots of fun. Her ambition is to graduate from M.R.C. For a hobby Helen chooses needlework and likes to do that when not at shows and dances.

BIRDIE RAMSAY (Alberta..) **East Coulee**
 Birdie comes from East Coulee, Alberta. Birdie's ambition is to be a secretary and likes dancing and shows. For a hobby, she collects souvenirs.

FRANCES RAMSAY (Frankie..) **East Coulee**
 Frankie came from East Coulee, but her pet ambition is to work at Yellowknife. Her social activities and hobbies are dancing, horse-back riding, shows and last but not least sleeping.

FLORENCE RYAN **Calgary**
 Perhaps the reason Florence never has her homework done is due to her great interest in sports ,skating, badminton, skiing and swimming taking the lead. She belongs to the Phi Beta Zi Sorority.

RUTH SMITH **Standard**
 Ruth is another of our blondes from Standard whose ambition is to make her shorthand and to get a substancial job, when finished. Her hobby is Saturday night dancing at Penley's. Her favorite pastime is awaiting for the phone to ring and neglecting her homework.

VIVIAN TACKABERRY (Viv) **Calgary**
 Viv is the girl with the bright smile who is often heard murmuring, "I'm hungry." She is a keen competitor in the bowling league, besides this, spends her spare time swimming, skating or playing baseball. Viv's ambition is to be a dental assistant.

BARBARA TOSH (Barb) **Calgary**
 A cute kid with a cute smile, Barb. is on the Bay's fashion Council and in the S.G.K'. Sorority. We wish Barb. lots of luck with anything she may try in the future. A certain J. E. occupies her spare time.

MAXINE VERRAL (Max..) **Mirror Lake**
 Max hails from Mirror Lake, Alberta, and has the ambition to become a dental or medical assistant. This lovely lady loves dancing and movies. She has a hobby of collecting stamps and snap shots.

DEREK WEST **Calgary**
 Derek, is the ambitious executive type and an enthusiastic member of the bowling league. Social activities—you ask him and to improve the social activities he collects records—the dreamy type.

MOIRA WILLIS **Calgary**
 Five foot two inches of fun; Moira hopes to be a good secretary and then someday take a Lab. Technician course. Collecting coins is her favorite hobby and she loves skiing, skating and cycling. Moira is a successful president of the Sigma tau Sorority and is a member of the Glencoe Club.

IVEIGH WILSON **Wainwright**
 "I can't see anyone I like better than myself around here", usually means that cute, mischievious, and popular Iveigh is around. She completes the trio that left at Christmas.

SHIRLEY YOUNG (Loretta. (Shirl)

MacLeod

Shirley was born in MacLeod but is now a resident of the College. Shirl's main ambition is to be a successful dental's assistant, and later a successful housewife. Hobbies are sewing, and knitting and is very interested in dancing and movies.

ROGER YOUNG (Chick.

Calgary

Chick is a popular fellow in the Commercial class. He has various ambitions but probably the only one which should be mentioned is that of becoming a successful business executive—earning at least \$300 a month. Chick, pianos and orchestras are all very closely associated—especially at noon-hour in the recreation room when he entertains all the kids with his variety of piano stylings. He is our Commercial Class President, and because of this is a member of Students' Council. He is also a member of the Phi Kappa Sigma Frat.

DOROTHY SCHICK

Carman Man.

Dorothy was born in Carman, Man. Her ambition is to be able to type like Doreen. Due to her sincere efforts in her other interests, Dorothy is too busy for any special hobbies, or clubs.

A Future Career

SOCIAL SERVICE WORK

I would like to share with you thoughts of something you might do for a career. And so I am going to suggest "Social Service" work and discuss it with you.

First, one needs to have the proper training which is available at McGill University, University of British Columbia, and The Deaconess House in Toronto. Excellent courses are also offered at Bishop Creighton's House, London England, and Hull House, Chicago in the United States.

In this work there are many openings. There is "family welfare" work, where one visits the poorer families of the district and assists them in every way possible; and there is "district visiting" where one visits from house to house in the district. There is "Dorcas work" which is the supplying of clothes to the poor and attending the physically weak. There is work which one must do in the prisons. There is also "police court" work with women and children. Homes are supplied for unmarried mothers and sub-normal children. An opportunity is given for those who are qualified teachers. Sometimes looking after discharged prisoners combined with Red Cross work is assigned. Then there is "settlement work." To do this one must live in the slums. Here you organize games for children after school-hours.

Many are the difficulties one encounters.

Bad housing is one of the worst things that there is. There will be many different types of people: those who are unintelligent or sub-normal, whom no-one will employ. There is inadequate hospitalization. This is very serious for many deaths can be prevented if care can be provided. In the slums parents will not always co-operate making it very difficult to prevent juvenile delinquency. And there is the very serious problem of unmarried mothers. The responsibility can rarely be placed and homes have been provided for these unfortunate girls. The pensions for widows are not sufficient and no provisions have been made for those too young to work or those who are unable to work.

To be able to do this work you should be a person of sane disposition and not easily discouraged. One should have a normal healthy outlook on life and a cheerful disposition is absolutely necessary.

Records are kept of all patients and their troubles in those organizations outside of the church. The social service organizations connected with the church does not keep records because they feel that the people are coming to them in strict confidence. They find that more people come to church settlement houses than other organizations.

This social service work has been a great help to the world, but we need many more workers, so that it may be carried on.

—Agnes Gibney

Editorial

The appearance of a year book is generally regarded as the unofficial sign of the end of the school year. Memories are short, as the exams usually prove, and it is the Year Book staff's duty to present a lasting record of the year's work, play and student body. It was decided this year to incorporate a larger number of candid shots in the Varishicom than usual, to achieve this purpose. We hope that this meets with your approval.

It has been "Vets Year" at Mount Royal, resulting in an expanded campus, teaching staff, and student enrollment. The University section was predominantly veterans, who were wise in the light of their long absence from studies, to chose Mount Royal, with its smaller classes and more individual teaching methods, to resume their interrupted studies. A sympathetic teaching staff has been a great help to these men (and Avis, our ex W.D.) in their pursuit of knowledge, degrees, and Sixty dollars per month. Varshicom's staff join in wishing them good luck and good marks.

So once again M. R. C. is relaxing its bulging walls to turn another group of graduates into a troubled world. Here is a point we should keep in front of us for the years to come. Regimented, mass, concerted action won the war, but, it is the individual, with trust in God, a genuine love for his fellow men, whatever their color or creed, and an educated free thinking mind, will win the peace.

F. T. White,

Editor

The Weigh of a Maid

Extract from a co-ed's letter home: "I am getting fat. I weigh 128 stripped. Of course, the scale at the drugstore may not be so accurate, but that's what they register.

Fairbairn and Tomlinson lunching at Gus's both grabbed for the check when presented and Fairbairn won.

'Either you're losing your grip old man', said Fairbairn, "or I don't know my own strength".

**It Took Ambition
and Dreams to build the Canadian Way**

Pioneers who dreamed of a better future and wanted that future enough to wrest it from an antagonistic wilderness. Pioneers who staked everything they had in the building of businesses and industries. People with courage, skill and enterprise. Some of them failed but those who succeeded opened the path for others to follow.

Calgary was built by such pioneers and its future prosperity depends upon the youth of today, who, bolstered by the benefits of education, will build new businesses and expand old ones, securing their future, making work for others and benefitting everyone.

That's the Canadian way—let's stick to it.

"What could be more sad", said the soldier, "than a man without a country?"

"A country without a man", answered the pretty girl.
